RE: House Bill 2 - Item Veto

Dear Secretary of State Johnson:

In accordance with the power vested in me as Governor by the Constitution and the laws of the State of Montana, after having carefully reviewed and considered House Bill 2, "AN ACT APPROPRIATING MONEY TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 2007; AND PROVIDING AN EFFECTIVE DATE," I hereby veto certain items contained therein. Those items not vetoed, I have signed into law. My explanation for disapproving certain items of the bill, through what is commonly referred to as a "line-item" veto, follows.

The power of the Governor to issue a line-item veto is contained in Article VI, § 10(5) of the Montana Constitution. It provides: "The governor may veto items in appropriation bills, and in such instances the procedure shall be the same as upon veto of an entire bill." By its terms, the "item veto" authorized by Article VI, § 10(5) contains no limitations.

I issue this "line-item" veto of House Bill 2 for reasons of fiscal responsibility and because I believe the bill runs afoul of certain provisions of the Montana Constitution related to the appropriations process and the separation of powers between the legislative and executive branches of government.

Addressing the fiscal issue first, I have vetoed the fiscal year 2006 appropriation of \$642,548 to fund the County-Paid Leave, found at pages A-2 to A-3 of the enrolled bill (Judiciary, ¶ 4.b.). This budget reduction brings the budget within the "spending cap" statute, § 17-8-106, MCA.

HOUSE JOURNAL  
ADDENDUM  
59TH LEGISLATURE

Turning to the constitutional issues, Article V, § 11(4) of the Montana Constitution specifically limits the matters the legislature may include in a general appropriation bill. “A *general appropriation bill shall contain only appropriations* for the ordinary expenses of the legislative, executive, and judicial branches, . . . and for public schools. Every other appropriation shall be made by a separate bill, containing but one subject.” (Emphasis added.) House Bill 2, the general appropriation bill, violates the constitutional restriction because it contains matters *in addition to* appropriations, including provisions of substantive law.

Time and again throughout House Bill 2, the Legislature has mandated that the executive branch of government prepare reports, itemize expenditures, report to legislative committees – on quarterly, biannual, annual, or other temporal bases – “outcomes,” “goals,” “successes,” “failures,” “impacts,” “progress,” and “status.” I submit that the thirty instances of reporting requirements contained in House Bill 2, some of which include substantive legislation, are in violation of Article V, § 11(4) of the Montana Constitution, limiting the general appropriations bill to appropriations only.

Parenthetically, I note the practical impossibility of some of the reporting requirements, which fall due on July 1, 2005, the date that House Bill 2 takes effect. I note, too, that many if not most of the reporting requirements are to standing legislative appropriation subcommittees, which are not scheduled to convene during the interim for purposes of receiving such reports or otherwise.

As a matter of policy, as well, I question the wisdom of including these reporting demands in the general appropriations bill. I am concerned with the “slippery slope” that has and will continue to result as year after year, the legislature increasingly encroaches upon the executive branch by including more and more reporting requirements and substantive legislation in the general appropriations act. I am particularly concerned with the legislature’s attempt to invade the province of the executive in administering funds appropriated by the legislature by micro-managing the agencies of government, including not only those within the executive branch but within the judiciary as well. The general appropriations bill should delineate the boundaries for spending. It should not place substantive requirements on the executive branch.

I reiterate messages I have delivered in the past. The doors to the offices within my Administration are open. I welcome your input, advice, and concerns while I lead the Montana’s executive branch of government. My Administration will respond to all proper inquiries from citizens, legislators, and legislative committees. To demonstrate this commitment, and in the spirit of good faith, although I question the constitutionality of the provision, I deliberately have chosen not to item veto the substantive reporting requirements of House Bill 2 directed at the Marketing and Business Recruitment Program, located in the Governor’s Office.

I conclude this message by recognizing and commending the members of the 59<sup>th</sup> Legislative Assembly in piecing together, after many long hours, a fiscally sound, socially responsible, and forward-looking appropriation bill, which balances the needs of the State of Montana and its citizens thoughtfully, creatively, and judiciously. I recognize that to craft this bill required perseverance, compromise, and an enduring commitment by members of the Legislature who care as deeply about this State and its citizens as do I and for that I thank them.

This letter delivered to your office accompanies House Bill 2, which contains my signature and my “strike outs” of the items to which I object.

Sincerely,

BRIAN SCHWEITZER

HOUSE JOURNAL  
FIRST LEGISLATIVE DAY - JANUARY 3, 2005

All members present. Quorum present.

Brad Johnson, Secretary of State of the State of Montana, extended greetings to the members on behalf of the State of Montana and then delivered the following speech:

"Before the Chief Justice administers the oath of office to all of you, I would like to take a few minutes to say what an honor and privilege it is to be here presiding over this very important event. This is a historic moment in a very historic setting. Little more than an hour ago I was sworn in as Montana's Secretary of State. Governor Schweitzer was sworn in as Montana's new Governor. Now you are about to be sworn in as members of the Montana House of Representatives. I look forward to working with Governor Schweitzer and all of you. While we have our individual duties to perform, it is incumbent upon all of us to serve the people of Montana to the utmost of our collective ability.

We have just been through an historic election with record turnouts and record turnabouts. Although this is a House divided evenly between two great political parties – Democrat and Republican – you are not in fact a House divided in the sense that you are a House about to fall. We are here together sharing a common purpose. The people of Montana have seen fit to send us here, and now we must live up to their most noble expectations. The people of Montana sent us here as representatives of their own diversity. The only mandate we have is to work together to administer a system of government that is not only civic-minded, but civil. We are here to represent the people, not ourselves.

As Secretary of State, one of the things I am going to be doing is reaching out to young Montanans all across this great state of ours, encouraging them to be active and informed participants in our very vital political processes. Montana's youth are critical to how we unfold as a self-governing body of diversely opinioned citizens. None of us is without a constituency that did not vote for us. With that in mind, let us conduct our mutual business in this hallowed Capitol with the utmost dignity and the utmost respect for one another.

I salute all of you for being here. I salute all of the people who voted to send you here. While we are Democrats and Republicans in this elected body, more importantly we are all fellow citizens and fellow Montanans."

Secretary of State Johnson introduced the Honorable Karla Gray, Chief Justice of the Supreme Court of Montana. Chief Justice Gray administered the following oath of office:

HOUSE JOURNAL  
FIRST LEGISLATIVE DAY - JANUARY 3, 2005

Rep. Wanzenried  
Rep. Linden  
Rep. Parker  
Rep. Brown  
Rep. Lange  
Rep. Noennig

The House adjourned for the Rules Committee to meet in the Speaker's office.

The House reconvened at 1:20 p.m.

The Rules Committee will meet after today's session.

Representative Brown made the following comments:

"Mr. Speaker, members of the body, friends, relatives, and the people of Montana, thank you for the opportunity to make a few brief comments.

What a difference a couple of years make! 2 years ago there was a \$250 million deficit. Many said, "Raise taxes; increase spending so we can meet the need." Our side of the aisle said, "Hold the line on spending so we can grow our economy out of a deficit."

That is exactly what happened. Now our percentage of job growth, income growth and unemployment rate are among the best in the nation. In 2 years we turned a \$250 million deficit into a \$300 million surplus because we held that line on spending and made more taxpayers instead of raising taxes.

The drum beat grows to increase spending again. Budgets have been proposed that even exceed the statutory limits on growth in spending.

We cannot go back to the tax-and-spend philosophy that failed so miserably in the past. We are now climbing up the economic ladder slowly but surely.

And if we do not succumb to the temptation to be all things for all people, the working families of Montana can continue to climb that economic ladder to a better future.

Timing is everything. For the past 8 years, we have put in place the rungs on that ladder to grow our economy.

Through the marvels of an unjust redistricting plan, through help from the courts and through a level of complacency by a Republican majority in this state, the Democrat political hierarchy can now try to take credit for what we have done.

A Democrat governor, a Democrat Senate and a divided House with a Democrat leader means Democrats now control whether we continue up that ladder to a better future.

The people in this chamber are watching. The people in those galleries are watching. The people across this state are watching.

Let's not disappoint them.

Thank you very much. God bless."

Representative Parker moved that the Speaker appoint a committee of four members to inform the Governor that the House is now organized and ready for business. Motion carried. Speaker Matthews appointed Rep. Buzzas, Chairman, Rep. Alan Olson, Rep. Wiseman. and Rep. Morgan.

Representative Parker moved that the Speaker appoint a committee of four members to notify the Senate that the House is now organized and ready for business. Motion carried. Speaker Matthews appointed Rep. Bixby, Chairman, Rep. Roberts, Rep. Lenhart, and Rep. Andersen.

Representative Parker moved that the Speaker appoint a committee of four members to notify the Supreme Court, by letter, that the House is now organized and ready for business. Motion carried. Speaker Matthews appointed Rep. Bernie Olson, Chairman, Rep. Hiner, Rep. Barrett, and Rep. Henry.

Mr. Speaker directed the House to stand at ease to await the report of the Select Committee from the Senate and the three Select Committees of the House.

Rep. Wanzenried made the following remarks.

HOUSE JOURNAL  
FIRST LEGISLATIVE DAY - JANUARY 3, 2005

“We begin the 2005 Legislature in the midst of great challenges and opportunities.

By now, we have all received letters commending us on our willingness to sacrifice by being away from home and family to serve our great state.

We must, however, keep our deliberations here in the proper context and perspective.

It is in that spirit that I ask that we observe several moments of silence to honor the brave women and men in the armed forces, especially those abroad in harm's way, who are making far more significant sacrifices, including the possibility of the ultimate sacrifice.

Following the moment of silence, please extend an expression of peace to one another.

With the permission of the House, I would like to make the expression of peace part of daily routine following the pledge of allegiance.

We convene this session believing that we can make a difference.

We must cooperate.

We must work together.

Hard-working Montanans demand that we roll up our sleeves, put our shoulder to the wheel and get to work.

There has been a great deal of attention given to the fact that, at least from a partisan standpoint, the House is evenly divided. 50 – 50.

Throughout the session, it will be our charge to form a team of 100, mindful that we will be judged by the fruits of our labors, not by the number of proposals and spoken words.

Each day, we must remind ourselves that our deliberations are not about those of us in this magnificent setting, in this building, in Helena - - - no, instead, it is about the people outside of this building:

Kids and teachers, workers, truck drivers, sawyers, clerks, seniors, farmers and ranchers, the Indian Nations, homeowners, small business-owners, those with disabilities, and those without hope.

We must recognize the significance of this opportunity and bring forward reasoned proposals to address the many challenges facing our state.

The state's economy and its overall poor performance should be our number one concern.

We frequently refer to our home as “The Last Best Place.”

Tragically, when compared statistically to other states, in too many important measures, Montana has become “The Best Place to Be Last” (or close to it). Yes, there are some promising signs, but, this has to be tempered by the recognition that there has been very little job growth (other than to replace jobs lost previously) and very little wage growth (other than for those holding jobs for extended periods).”

And, yes, our unemployment rate compares us favorably to other states. However, in Indian Country, unemployment exceeds 70 percent!

70 percent. An unemployment rate of 70 percent would be unacceptable in any of our urban areas - - it should be no less acceptable in American Indian communities.

Montana's first citizens deserve our special consideration.

Beginning with kick-starting Montana's economy, we must adopt not only a ‘Can do’ attitude, but a ‘Can do better’ attitude as well.

We must forge strong partnerships with the business community. This will assist in the creation of a robust economy that will allow us to care for our less fortunate neighbors, to educate our kids and to protect this place we call home.

It is time that we regard some government expenditures as investments, not simply as costs.

It is time that we take a step forward to begin the process of investing meaningfully in human resource development.

Sound and measured investments in education at all levels kindergarten through grade 12, technical colleges, tribal colleges, community colleges and our University system are key to better equipping and adapting our workforce now and in the future to compete in a global economy.

These, as well as investments in workforce development, job-training and job-retraining, are essential, if we are to reverse the out-migration of too many younger Montanans and skilled workers. Currently, they leave because they cannot afford the costs of education here or to seek better financial opportunities elsewhere.

We need to direct our attention to the plight and opportunities of small businesses, which comprise 88 percent of all businesses in Montana. Providing incentives and initiatives, including venture capital for entrepreneurs, will assist in strengthening and expanding this important base of our economy.

Additionally, far too many workers in Montana have no health insurance and too many small businesses cannot afford to offer health insurance to their workers.

We must carefully examine the feasibility of extending tax credits to small businesses and the formation of shared risk pools, so that they can offer health insurance coverage for their workers.

We can do better. We must do better.

HOUSE JOURNAL  
FIRST LEGISLATIVE DAY - JANUARY 3, 2005

Too many Montanans are one medical examination away from economic ruin. We must also stop the cost shifting to other patients with health insurance. We must search for ways to bring down the costs of prescription medications. As we deliberate on health care issues, however, we must be mindful that federal dollars for Medicaid are likely to be slashed and that state matching dollars must be stretched creatively to the limit.

Simply acknowledging the challenges posed by an aging population and the costs of medical care is not enough. It will take an investment. We must recognize that the consequences of inattention, indifference and inaction are very costly to Montanans.

Natural resources have been an essential part of our state's legacy and will continue to play an important part of our state's future. We must commit ourselves and those who seek to develop our resources to the principles of good stewardship. We must protect our pristine waters and air and the untamed vistas that anchor us to this very special place. We must ensure that Montanans have access to public lands to hunt, fish and recreate.

Finally, we must find a way to provide property tax relief to homeowners and small businesses.

I commit to creating a working environment that is open, fair and respectful.

We must all commit ourselves to burn the midnight oil whenever necessary to catch up . . . hard-working Montanans should expect no less. And, as I challenged last session, just when we believe our work is completed, we need to step back and ask ourselves, "Is this really the best that we can do?"

Let's roll up our sleeves and get to work."

And further that, following the Governor's address, the House reconvene at 1:00 p.m., January 20, 2005. Motion carried.

**SPECIAL ORDERS OF THE DAY**

Sergeant-at-arms Clark notified Mr. Speaker that the Honorable Senate of the State of Montana awaits outside the Chamber. Speaker Matthews requested Sgt.-at-Arms Clark to admit the Honorable Senate into the House chamber. Speaker Matthews introduced Senate President Tester and yielded the chair to him.

Senate Majority Leader Ellingson moved that the body resolve itself into a joint session for the purpose of receiving the address from the Governor of the State of Montana, the Honorable Brian Schweitzer. Motion carried.

Senate Majority Leader Ellingson moved the President be authorized to appoint a committee of four to notify Governor Schweitzer that we are in joint session and ready to receive his address. Motion carried.

President Tester appointed Senator Weinberg, Senator Kitzenberg, Representative Bixby, and Representative Mendenhall to escort the Governor to the Chamber.

The committee escorted Governor Schweitzer into the chambers.

The colors were posted by members of the Montana National Guard. Students from the Canyon Creek School led the Pledge of Allegiance. Invocation was given by Bishop Thomas of Helena.

Senate President Tester introduced Governor Schweitzer to the joint session, and the Governor gave the following speech:

"Mr. President, Mr. Speaker, My Fellow Montanans. Thank you and good evening. It is indeed my honor to be before you this evening. It is my great honor to stand before you this evening as the Governor of the great State of Montana. President Tester, Speaker Matthews, thank you for inviting me in to address the great 59<sup>th</sup> legislative assembly of the great State of Montana.

First, I would like to thank my closest confidant, my best friend, my partner, mother of my children, the one who has kept the home fires burning during the last 2 years when I've been on the road, the one who's taken care of the ranch, and the one who, on Sunday will have been married to me for 23 years. Thank you, Nancy, for standing beside me.

Here this evening is a very special person. Betty Bollinger has spent 30 of the last 50 days in a hospital in Billings. She's been fighting leukemia. I told Betty from the very beginning, "I'm betting on you." And tonight, my good friend, your friend, Betty Bollinger is here. She's back. Betty is back!

On my second day on the job as the Governor of Montana, I rode on a National Guard helicopter to Troy, where I was faced with the challenge of finding the words of comfort for a mother, a father and a brother of a fallen Montana Marine. Tonight I would like to honor all of the Montanans who are on active service around the world. And our prayers need to be with our young people, in particular in Iraq. Tonight we have Command Sergeant Major Ronda Scott with 29 years experience. She served in Iraqi Freedom, and now she is home, but tonight her son, Brian Tetrault, is serving in Iraq. I would like to have everyone remember, not just Brian, but all of the Montanans, indeed all of the Americans that are serving in Iraq this evening, tomorrow, this month and next month.

I would like to quote Teddy Roosevelt, who I believe was one of the greatest Presidents in the history of this country. He said "A man who is good enough to shed blood for his country is good enough to be given a square deal afterwards." I agree with Teddy in that one, and that's why I say to you tonight that the federal government is offering a \$10,000 death benefit to the families of our fallen heroes. Ten thousand dollars. Tonight Senator Gallus

HOUSE JOURNAL  
FOURTEENTH LEGISLATIVE DAY - JANUARY 19, 2005

and Representative Noonan are here. They have proposed a piece of legislation that would have those of us in Montana pay the premiums of a death benefit for all our active soldiers. This death benefit would be for not \$10,000 but for \$250,000 per fallen soldier. We will not forget their families' sacrifice. Thank you very much, Senator. But we will do more. Those that are returning from active service will be offered scholarships to our two-year institutions, to our colleges of technologies, our community colleges, our tribal colleges, so that as they return, they can get the life skills to be successful for the rest of their lives in Montana. We owe these soldiers!

Nearly a year ago, I sat in the living room with John and Bette Bohlinger. The proposition was simple: Is Montana prepared for a Republican and a Democrat to work together in the Governor's office? Is Montana prepared to embrace the notion that Republicans and Democrats can work together starting in the Governor's office? John, Bette, the answer is here tonight and the answer is yes, they are ready.

Senator Cobb, Senator Kitzenberg, you have proposed that Montana ought to have a Montana poet. In honor of that idea, I will recite a poem. Anonymous, I don't know who the author is, and I think it applies. "Somebody said that it couldn't be done, but he with a chuckle replied, that, maybe it couldn't but he would be one that would not say so 'til he tried. So he buckled right in with a bit of a grin on his face. If he worried, he hid it as he tackled the thing that couldn't be done, and he did it."

We have always been dreamers in Montana. The first fur traders, the miners who came here hoping to strike it rich, the cattlemen who brought the herds from Texas, and yes, the Homesteaders, including my grandparents who left behind almost nothing, and arrived in Montana with nothing but the clothes on their back, high hopes, faith in God and dreaming of the future. We are a state of dreamers. We are a state that can make those dreams come true.

I would ask all of the legislators, Democrat and Republican, all of the people who serve in the executive branch, let us never forget who we work for. We work for the families back home. We do not work for the lobbyists that prowls the halls of the capital building. Do not forget who we work for. We work for the families back home. That's why we believe that the legislature needs to take a hard look at our ethics bill. We have to make sure that the people back home know that when you come here to do the work for them you will be working for their interests, not the interest of the special interests in Helena, who may employ you after you leave service in the executive branch or in the legislative branch. Never forget who you work for.

I've been in all 56 counties in the last year listening to the people of Montana. The families of Montana have told us what their priorities are. They have said to us, "We need to strengthen that fabric of the Montana family, and the most important thing we need to do to strengthen that fabric is to create jobs, high paying jobs, jobs so that young people can stay in Montana and raise the next generation." We need to work our level best in this legislative session to help grow Montana's economy, so that grandchildren can stay in Montana, grandchildren can visit their grandmother and grandfather by driving across town, not flying across the country. It's important. Those same families have told us that we need to build the skills in our young people so they are prepared for the jobs of tomorrow. They have told us we need access to affordable healthcare. They have told us that we need to help build that family strength across Montana with that quality of life of safe communities. Most importantly they have told us that, "We want you to do the work for us while you're in Helena."

Most important from the beginning, is for the people of Montana and the people of this great country, across the country, to know that Montana is open for business. We can grow Montana's economy, we can invest in our education, we can invest in healthcare. We can push Montana forward and we can do it without raising taxes. In fact, we are proposing to eliminate a class of taxes, the business equipment tax on 13,300 small businesses for a total of twenty-five million dollars over the next 10 years. Those of you legislators who live in the areas of Montana who have rapid economic growth know that what I am saying next is true: Montana's not a single economy; we are at least two, maybe three economies. Within that area the golden crescent, some people call it, I call it the Cowboy Boot, that starts in the Flathead, goes down through Missoula, turns through the Gallatin and the toe is Billings, within that part of Montana we have some of the most robust economic development anyplace in the country. But if you are outside the Cowboy Boot, times are a little tougher. That's why I am so proud of Senator Jerry Black, Representative Bob Bergren; a Democrat, a Republican reaching across the aisle and saying; "We will join all the provinces and states that surround Montana that have figured it out." We need to add value to our grain and create a sustainable, renewable supply of fuel called ethanol.

Montana is the Treasure State. We have been blessed with abundant minerals. And in particular today, an almost inexhaustible supply of energy. Our great coal reserves, our natural gas, our wind power, and the potential for hydrogen development in Montana. We need to put the pieces together and that is why we are calling an energy

HOUSE JOURNAL  
FOURTEENTH LEGISLATIVE DAY - JANUARY 19, 2005

conference for this summer where we will bring together the best and the brightest minds in energy generation and energy transmission so that we can build a plan for energy in Montana that encompasses not one year, not five years, not 25 years, but 1, 5, and 25 years and beyond. It's important. Montana can be a leader in energy for the entire world; the time to start is now.

You know, I know that Montana is the greatest place in the world to raise a family, to start and grow a business. You know it, and I know it and now we will tell the world. We are proposing a significant promotion of the attributes of doing business in Montana, to attract new businesses to Montana, new investment to Montana. And help the existing businesses in Montana continue to prosper and grow. As part of it we are going to re-implement the Made in Montana program. There is a great sense of pride for the people of Montana to buy Made in Montana, but more importantly Montana's name has a magical ring to people from around the country and around the world. We need to promote the products around the country and around the world and be proud of those products as Made in Montana. If you think economic development is not easy outside the Cowboy Boot, if you think economic development is tough in the rural areas of Montana, be assured it's even tougher in Indian country. We are committed to a significant effort to bringing economic opportunity to the First Montanans.

Some 30 years ago Montana embarked on a new industry. We were a leader 30 years ago among the states in attracting the film industry to Montana. Somewhere we lost our way and for the last few years the grand stories of Montana families have been filmed in Alberta, in Saskatchewan where they have attracted the film industry to Canada, now North Carolina, Utah, Louisiana. The film industry would love to film in Montana. We are putting together a package to attract the film industry to come back to Montana. When the film industry comes to Montana they bring trucks full of equipment and trucks full of money that they leave behind when they are done. They buy things made in Montana, they rent motels, and they eat at our restaurants. They hire Montanans for lights and sound and probably more significant is that when you put the majesty of the Big Sky on the big screen people all over the world have the opportunity to see Montana. In South America, in Asia, in Europe and all over this country hearts beat a little faster. Families that watch these movies, their hearts are beating and they say, Somehow, some way, someday we're going to Montana.

In all 56 counties I have heard from the families and the small businesses, "Can't we make government more efficient? Can't we find a way of delivering the functions of government cheaper? Can't we do a better job of delivering Montana's government to Montana's families?" They are all asking that question. That's why we are putting together a performance review. We are going to look for those savings. Lieutenant Governor John Bohlinger is going to lead this effort. We are going to ask people from across Montana to give us their best ideas. Send us your best ideas at [ideas.mt.gov](http://ideas.mt.gov). Tell us your ideas on how we can deliver Montana's government more efficiently across Montana. And to the state employees across Montana, know this, your good ideas are valued. You will not be reprimanded; in fact, we will reward you. We are implementing what we call the Corps of Recovery. We are asking state employees to send their best ideas, and every month we will choose the employee with the best idea, and we will present them with a \$1,000 check and a coin made of palladium.

We have selected palladium because, like Montana's state employees, it is only found in Montana. It is produced in South Africa, Russia, and in Montana at the Stillwater Mine. Palladium is a beautiful metal. It is the color of silver or platinum, but it's a working metal, like state employees. Palladium is used for catalytic converters, fuel cells; it's a working metal, like our state employees. This is unique in another way. It's silver, but unlike silver or platinum, palladium never loses its shine, like state employees.

Families across Montana have already figured it out. As Montana continues to grow, as Montana continues to grow our economic opportunities, as we move from just a resource-based economy to an economy that is adding value to our minerals, adding value to our agriculture, adding value to our energy, we are increasingly a knowledge-based economy. As such we must understand it is time to invest in higher education.

My mother and father are here this evening. Mom and Dad are children of Montana homesteaders. Neither my mom nor my dad graduated from high school, but they were dreamers; they dreamed of the possibility of sending their children to college. They were people of simple means, but because the state of Montana and the federal government understood the importance of investing in higher education, with hard work, and part-time jobs, scholarships, and grants, they were able to send all six of their kids to college because they were dreamers. During the last dozen years Montana's commitment to higher education has been lagging. And today families all over Montana, families like the one I grew up in, families of limited means are not going to be able to send the next generation to college.

HOUSE JOURNAL  
FOURTEENTH LEGISLATIVE DAY - JANUARY 19, 2005

I've already mentioned to you how important higher education is for economic development. A knowledge-based society requires that we educate people in the disciplines, in the jobs that we are creating. It is time that we invest in higher education, and we have a plan. We would like to implement a plan that we call the best and the brightest. We would like to offer a \$1,000 per year scholarship for up to four years to the best and brightest from every high school in Montana, 180 of these best and brightest scholarships, four year, \$1,000 scholarships to attend a Montana college or university. In addition, 40 more scholarships, Best and Brightest scholarships that are \$2,000 for four years to attend a Montana college or university. 500 scholarships that are needs based for our young people to attend our colleges of technology, those colleges that will rapidly train for the jobs of tomorrow. Medical technicians, diesel mechanics, heating and air conditioning specialists, and the list goes on. 500 \$1,000 per year scholarships for up to two years, and in addition to that, 150 scholarships, once again to the Best and Brightest graduates who choose to study at our colleges of technology, \$1,000 a year for two years.

But, it doesn't start at higher education, it starts with an age you saw right here earlier from the Canyon Creek Elementary School. Let us remember that an investment in K-12 is an investment in our future. Children like these Canyon Creek kids are the future of Montana. In order for us to prepare the next generation for our colleges of technology and universities, we need to invest in K-12 today. Today we have the legislature in session. I know that the greatest task that you are faced with is to put together a funding formula to invest in the future of Montana, our elementary school students. Please finish the work within 90 days. Invest in our future today.

Recently the people of Montana have spoken. They, through referendum, have decided that we would do something significant about tobacco use. They have implemented and instructed us to spend the money wisely. They have implemented a plan of \$1 per pack of cigarettes and they've told us how to spend that money. They told us first, let us spend the money to decrease the number of smokers in this state. I have been in all 56 counties. I have been to high schools all across Montana. If you haven't been to them lately, I will take you to them, across the street, down the alley, across the parking lot, on the noon hour, before school, after school and I will show you where high school students are learning to smoke. It is time to put an end to new smokers in Montana. Nancy and I have three teenagers. We know, like families all over Montana, that these tobacco companies will not be in business 30 years from now if they are unable to addict your children today. We will use the money to reduce the number of smokers in Montana today. The time to start is now.

The people of Montana also told us that they want us to invest this money wisely in healthcare. They told us that we should invest this money in the Child Health Insurance Program so children 18 years and younger of limited means will have health insurance. This is a great program because there are federal matching funds 4 to 1. We will fully fund the CHIP program in Montana.

20% of Montana doesn't have health insurance. All over Montana the story is the same. The parents are tucking these kids into bed just like the parents of Canyon Creek students. And as they tuck their kids into bed, it's the same in all families, get on your knees, say a prayer beside the bed, you softly close the door. But in 20% of these families they walk down the hall, then they get on their knees one more time and they pray to God that no one gets sick or injured in their family because they don't have health insurance. Many of these families are owners of small businesses, and employees of small businesses, the backbone of Montana's economy. That's why when the people spoke they said we ought to help with targeted tax credits that the small businesses across Montana that have not been able to afford insurance can pool together for a targeted tax credit so that more families have health insurance. There will be less cost shifting, because when a family doesn't have health insurance they go to the emergency room in an emergency and that is the most expensive. If that family was unable to afford health insurance, surely they would not be able to pay the bill at the hospital. So that bill gets passed along to those who can afford health insurance, because health insurance is a business in Montana. It's the largest business in Montana and our healthcare providers need to be compensated so they pass those costs along to those of us that do have health insurance raising the cost of health insurance for everybody. That's why it's so important to help the targeted tax credits to pool together in large numbers so the small business owners and their families and employees can pool together to they too can enter the world of insured families. Those healthcare providers in each and every one of our communities are heroes; they provide their services for 20% of the cost. That is Medicaid reimbursement. The people of Montana have also spoken that we need to reimburse our healthcare providers at a higher rate and we will do that as well.

These folks also have said we need to help people with their prescription drugs, and we will, but we won't make the mistake that Congress made. Congress passed a prescription drug benefit for Medicare, but they specifically put language in the bill that specifically prevents Congress from negotiating the price of medicine. Joan Stroup is here tonight. Joan is one of those courageous Montanan senior citizens who in 1999 when I started taking buses

HOUSE JOURNAL  
FOURTEENTH LEGISLATIVE DAY - JANUARY 19, 2005

across the border to Canada to demonstrate the hypocrisy of Congress that passed the North American Free Trade Agreement that freely allows hogs and logs and cattle and grain and energy and manufactured goods to cross the border disrupting the local markets but medicine made in the United States, shipped across to Canada, is not allowed to come back. Joan traveled with us not to Canada, but she flew with a group of senior citizens to Phoenix and we drove vans into Mexico. Joan was spending \$1280 a month to buy her prescription drugs. At a Mexican pharmacy we found the same medicine, made in the United States, for \$247 per month. Thank you for your courage, Joan, and let me say this: I will not rest as your Governor until every person in Montana can buy world-class medicine at a world price at your local pharmacy.

We talked about the importance of stopping the next generation from smoking, but now let's talk about healthy choices, healthier living, exercise, healthier eating, responsible use of alcohol. And now let us talk about drugs. Let us talk about methamphetamine. This is one of the greatest challenges in every community across Montana. That is why I am so proud of a doctor, Representative Dr. Don Roberts, for proposing that we ought to have a commissioner for drug addictions to pull together all the resources in the state of Montana, state, county and city.

And let us not forget our most important asset in Montana. That is our quality of life. This is a great place to raise a family; safe communities, the most spectacular public land on the planet for hunting, for camping, for fishing, so that's why it is so important for this legislature, Michael Lange, to make the block management program permanent. Continue the Habitat Montana Program and the Fishing Access Enhancement Program. We are also proposing to restore the Montana Agricultural Heritage Program to protect those special places across Montana.

In conclusion I will turn once again to Teddy Roosevelt who said: "It is true of the Nation as it is the Individual, the greatest doer must also be a great dreamer." I challenge you to be dreamers. I challenge you to be doers and let us make the greatest place in the world even better. I thank you again and I remind the members of my administration: We shall not forget who we work for. We shall not forget that single mother in Billings with two disabled children whose husband and father of the children couldn't cope and left the family. We will not forget her. We will not forget the small businessperson on Main Street in Miles City. We will not forget the farm family from Cut Bank who's been on the farm for three generations who just wants to pass the family farm on to the next generation. So I ask all of you legislators to join us and never forget who we work for, The families of Montana. God Bless you, God Bless Montana, God Bless America."

President Tester thanked Governor Schweitzer and directed the escort committee to escort Governor Schweitzer from the joint session.

**Insert:** "Section 2. Section 53-21-126, MCA, is amended to read:

**"53-21-126. Trial or hearing on petition.** (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; or

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part."

Senate President Tester introduced U. S. Senator Max Baucus to the joint session. Senator Max Baucus made the following remarks:

"Speaker Matthews. President Tester. Minority Leader Keenan. Democratic Leader Wanzonried. Republican Leader Brown. Members of the 59th Legislative Assembly. And most importantly, our bosses, the people of Montana.

Thanks for inviting me. And thanks for your warm welcome as I come back to the Montana Legislature. It's been a long time since I've had the pleasure of serving with you and I'm deeply humbled to be back.

I can remember vividly coming to the Capitol to serve for the first time in 1973 as a Representative from Missoula. Representative Jopek, I do believe you are sitting at my old desk, sir. But I wouldn't worry – I don't intend to try to get it back!

When I came here, I was wide-eyed. Maybe a little intimidated. Possibly less around the waistline. Definitely fewer gray hairs! But most assuredly excited to help our state. To serve Montanans and do what's right.

That time shaped my views and reinforced my dedication to public service. And having served here only deepens my respect for everything you do. Believe me, I know how hard you work. I remember the long hours on the job and the challenges you face.

HOUSE JOURNAL  
TWENTY-FIRST LEGISLATIVE DAY - JANUARY 27, 2005

I want to thank all of the state department directors and Montana's statewide elected leaders for being here today: Lt. Governor Bohlinger, State Auditor John Morrison, Superintendent of Public Instruction Linda McCullough, Secretary of State Brad Johnson, Attorney General Mike McGrath, Distinguished Members of the Supreme Court.

Before I continue, I want to take a minute to recognize the 1,182 brave Montana men and women who are serving our country in Iraq and Afghanistan.

I was proud to ride in the inaugural parade last week in Washington with Lance Corporal David Coleman from Butte. David was injured over there, and he really embodies the pride we all feel, the respect we all have for our men and women in uniform. We honor those who have been injured and those who are still over there.

And let us never forget the six men who paid the ultimate price defending freedom across the globe. Please stand with me and recognize the Montanans we've lost over there: Edward Saltz, 27, from Bigfork; Aaron Holleyman, 26, from Glasgow; Owen Witt, 20, from Sand Springs; Dean Pratt, 22, from Stevensville; Raleigh Smith, 21, from Troy; and Kristofer Stonesifer, 28, from Missoula. Thank you..

We honor all of the enlisted men and women. Air National Guard members. Army National Guard members. Army and Naval Reservists. We honor their service. And we renew our commitment to serve as well.

We're doing something a little different here today. This joint session is being broadcast live by our friends at Vision Net. That's the state-of-the-art Montana video conferencing company. For the first time ever, a legislative address is being broadcast to Glasgow and Hardin High Schools, as well as Flathead Valley Community College in Kalispell. Here's a big hello to all of you watching and listening in. And hello to the students from Helena High here today. You know, I was a Helena High Bengal too a few years ago.

Just as we use technology to bring our communities together as one, we as Montana's elected leaders must bring ourselves together to move Montana forward.

We need to work together to get those good-paying jobs. Boost our state's economy. Ensure our kids get a world-class education. And make sure all Montanans have access to quality, affordable health care.

I realize you face immense hurdles this session. You've got a long row to hoe yet. But we've all seen what working together and a little Montana can-do attitude can do. Let's just put the best interests of Montana first and come together to solve the problems facing our state. Do what's right for Montana.

I have my priorities in Washington, too, like: writing another robust highway bill that creates jobs in Montana; protecting Social Security from risky schemes and huge benefit cuts; making Washington fund its education mandates; staving off cuts to Medicaid and boosting agriculture and Main Streets across Montana.

But maybe one of the most pressing issues we face in Washington is also one we face here at home: skyrocketing health costs and growing numbers of uninsured. We have a health care crisis in Montana. We ignore it at our own peril. And that's the main thing I want to speak to today.

Our health care system is broken. It's the most expensive in the world by far. At about \$5,700 per person, we spend almost twice what Switzerland, the second-most expensive system does. And yet, forty-five million Americans lack health insurance. One out of every five Montanans can't afford health coverage. You've all heard the statistics. But people aren't just statistics.

The problems of the uninsured and rising costs require a shared solution. And not just one born in Washington or Helena. We need creative answers born of experience and the reality on the ground.

As the top Democrat on the Finance Committee, which has jurisdiction over many health care programs, you can bet I'm going to do my part. And I'm committed to helping you all do yours.

The rising cost of health care is a problem that transcends party politics. It's a problem that plagues Main Street businesses and working families across our state. And it's not just a problem for the poor, or the disabled, or the disenfranchised. Being able to afford the basic necessity of health care or emergency care when we need it, when

HOUSE JOURNAL  
TWENTY-FIRST LEGISLATIVE DAY - JANUARY 27, 2005

our kids need it, is critical to moving Montana forward on every level. How can we expect to boost Montana's economy, create jobs and grow business here if we don't address this fundamental need for Montanans?

And being a small-business state, we have one of the lowest rates of employer-sponsored coverage in the country. Small businessmen I talk to tell me they either can't afford to provide their employees coverage, or they're having to scale it back. They want to help their loyal employees, but the bottom line just isn't there.

I'm standing here before you today, as a fellow public servant – urging you to work with me. This is a federal and state problem. So that means we're in this together.

Clearly, there's some good news for the state budget with the new tobacco money under I-149. Montanans provided a new mandate, and a fresh new revenue stream to begin to help tackle this critical problem.

As Montana leaders you could help be a model for other states. You could chart an innovative and new course for others to follow. But, you have to use those dollars wisely first. Montanans spoke loudly and clearly on this initiative. We shouldn't squander this historic opportunity to help our people. And so I urge you to carry out the will of Montanans and use those new dollars to help provide quality, affordable health care to those who need it most in our state.

I tip my hat to the health care community and Auditor John Morrison for proposing a broad new plan to use those dollars. That plan combines cutting tobacco use with boosting the CHIP program, giving small businesses a tax break for providing coverage, and providing prescription drugs to more Montanans.

I also commend Senator Tester and Representative Roberts for working to pass a new prescription drug bill, and Rep. Wanzonried for fighting to help small businesses.

I also ask that you approve Governor Schweitzer's budget proposal to increase state support for CHIP and take advantage of more federal Medicare dollars. And here's to Senators Keenan and Cob for their interest in enhancing Medicaid services.

Realizing this is a problem for all of us to help tackle, I'm pledging to do my part in Washington too. I'll bring something to the table as well. You know, I'm not a fan of the CHIP program. Nope, I'm not a fan. I'm a rabid, fanatic fan of the CHIP program! I was an original author of CHIP in 1997. I lobbied the Legislature, you folks, to put up the state's match in 1999. And I've long worked to boost Montana's share of CHIP funding, most recently a \$1.6 million bonus payment. So you could say that I have a personal interest in seeing CHIP serve even more kids.

I see so much opportunity, so much more we can do. And how can we pass up the federal dollars that come with Montana's match? As you know, every state dollar ends up generating about \$4 for the program, which provides health care to more than 10,000 needy kids. But we can and must do better to curb the rising number of uninsured.

That's why I have five steps for Congress to take.

- 1) Expand Medicaid coverage and the CHIP program.
  - 2) Give employers with fewer than fifty employees a federal tax credit for providing health insurance.
  - 3) Expand high risk pools – that's the insurer of last resort for those with pre-existing conditions or sky-high health care costs
  - 4) Let people buy into Medicare early, at age 55
  - 5) Make Medicaid work better for the states, strengthen it to meet today's challenges, and improve Indian health care.
- Real people With real problems

It's easy sometimes to get bogged down in the policy and the numbers. But we can never forget that there are real people with real problems behind all that data. I've seen firsthand how programs like Medicaid help save lives.

I'll never forget. It was when I walked across the state while running for the Senate in 1996. I was out near Sidney. It was a terrible storm. This lady comes racing past me, then slammed on her brakes. She was in an old pickup. She reversed back to me, rolled down her window. And read me the riot act about health care. She had been injured. I

HOUSE JOURNAL  
TWENTY-FIRST LEGISLATIVE DAY - JANUARY 27, 2005

can't remember exactly what it was. But she couldn't work. She had two kids and no health insurance. I will never forget the desperation on her face. It's something I'll always remember.

There was also a single mother of two that called my office not too long ago. She was very ill and in desperate need of a heart procedure. But she was having a hard time cutting through the red tape to get on Medicaid. She didn't have much longer to live. We stepped in and got her covered under Medicaid. She got the procedure, which will let her and her kids have a normal life. If it wasn't for Medicaid, I can only imagine what would have happened.

These are just a few of the thousands of examples out there. I only mention these stories because I want to emphasize that these are real people with real problems. They just want to lead normal lives. They just want to be able to afford health care. Find good jobs. Send their kids to college.

In matters like these, we would all be wise to follow the example of our beloved U.S. Senator and my friend and mentor, Mike Mansfield. I know of no other person in public life and public service during our history whose services to our country and Montana have been greater than that of Senator Mansfield. "Our Mike" got things done. How did he do it? By working together."

Senate President Tester thanked U. S. Senator Baucus and directed the escort committee to escort U. S. Senator Baucus from the joint session.

Senate Majority Leader Ellingson moved that the joint session of the 59th Legislature, convened to receive the address from U. S. Senator Baucus, be adjourned. Motion carried.

Joint session adjourned at 1:46 p.m.

**"53-1-203. Powers and duties of department of corrections.** (1) The department of corrections shall:

(a) adopt rules necessary to carry out the purposes of 41-5-123 through 41-5-125, rules necessary for the siting, establishment, and expansion of prerelease centers, rules for the establishment and maintenance of residential methamphetamine treatment programs, and rules for the admission, custody, transfer, and release of persons in department programs except as otherwise provided by law. However, rules adopted by the department may not amend or alter the statutory powers and duties of the state board of pardons and parole. The rules for the siting, establishment, and expansion of prerelease centers must state that the siting is subject to any existing conditions, covenants, restrictions of record, and zoning regulations. The rules must provide that a prerelease center may not be sited at any location without community support. The prerelease siting, establishment, and expansion must be subject to, and the rules must include, a reasonable mechanism for a determination of community support or objection to the siting of a prerelease center in the area determined to be impacted. The prerelease siting, establishment, and expansion rules must provide for a public hearing conducted pursuant to Title 2, chapter 3.

(b) subject to the functions of the department of administration, lease or purchase lands for use by correctional facilities and classify those lands to determine those that may be most profitably used for agricultural purposes, taking into consideration the needs of all correctional facilities for the food products that can be grown or produced on the lands and the relative value of agricultural programs in the treatment or rehabilitation of the persons confined in correctional facilities;

(c) contract with private, nonprofit Montana corporations to establish and maintain;

(i) prerelease centers for purposes of preparing inmates of a Montana prison who are approaching parole eligibility or discharge for release into the community, providing an alternative placement for offenders who have violated parole, and providing a sentencing option for felony offenders pursuant to 46-18-201. The centers shall provide a less restrictive environment than the prison while maintaining adequate security. The centers must be operated in coordination with other department correctional programs. This subsection does not affect the department's authority to operate and maintain prerelease centers.

(ii) residential methamphetamine treatment programs for the purpose of alternative sentencing as provided for in 45-9-102, 46-18-201, 46-18-202, and any other sections relating to alternative sentences for persons convicted of possession of methamphetamine. The department shall issue a request for proposals using a competitive process and shall follow the applicable contract and procurement procedures in Title 18.

(d) utilize the staff and services of other state agencies and units of the Montana university system, within their respective statutory functions, to carry out its functions under this title;

(e) propose programs to the legislature to meet the projected long-range needs of corrections, including programs and facilities for the custody, supervision, treatment, parole, and skill development of persons placed in correctional facilities or programs;

(f) encourage the establishment of programs at the local and state level for the rehabilitation and education of felony offenders;

(g) administer all state and federal funds allocated to the department for youth in need of intervention and delinquent youth, as defined in 41-5-103;

(h) collect and disseminate information relating to youth in need of intervention and delinquent youth;

(i) maintain adequate data on placements that it funds in order to keep the legislature properly informed of the specific information, by category, related to youth in need of intervention and delinquent youth in out-of-home care facilities;

(j) provide funding for and place youth who are adjudicated to be delinquent or in need of intervention and who are committed to the department;

(k) administer youth correctional facilities;

(l) provide supervision, care, and control of youth released from a state youth correctional facility; and

(m) use to maximum efficiency the resources of state government in a coordinated effort to:

(i) provide for delinquent youth committed to the department; and

(ii) coordinate and apply the principles of modern correctional administration to the facilities and programs administered by the department.

(2) The department and a private, nonprofit Montana corporation may not enter into a contract under subsection (1)(c) for a period that exceeds 10 years. The provisions of 18-4-313 that limit the term of a contract do not apply to a contract authorized by subsection (1)(c). Prior to entering into a contract for a period of 10 years, the department shall submit the proposed contract to the legislative audit committee. The legislative audit division shall review the contract and make recommendations or comments to the legislative audit committee. The committee may make recommendations or comments to the department. The department shall respond to the committee, accepting or rejecting the committee recommendations or comments prior to entering into the contract.

(3) The department of corrections may enter into contracts with nonprofit corporations or associations or private organizations to provide substitute care for youth in need of intervention and delinquent youth in youth correctional facilities."

**"23-2-512. Identifying number.** (1) The owner of each motorboat, sailboat, or personal watercraft requiring numbering by this state shall file an application for number in the office of the county treasurer in the county where the motorboat, sailboat, or personal watercraft is owned, on forms prepared and furnished by the department of justice. The application must be signed by the owner of the motorboat, sailboat, or personal watercraft and be accompanied by a fee of ~~\$3.50 in calendar year 2004 and, in each subsequent year, \$15.50~~ \$20.50. Any alteration, change, or false statement contained in the application renders the certificate of number void. Upon receipt of the application in approved form, the county treasurer shall issue to the applicant a certificate of number prepared and furnished by the department of justice, stating the number assigned to the motorboat, sailboat, or personal watercraft and the name and address of the owner.

(2) The applicant, upon the filing of the application, shall pay to the county treasurer the fee in lieu of tax required under 23-2-517 for a motorboat 10 feet in length or longer, a sailboat 12 feet in length or longer, or a personal watercraft before the application for certification or, if applicable, recertification may be accepted by the county treasurer.

(3) If the ownership of a motorboat, sailboat, or personal watercraft changes, a new application form with the certification fee must be filed within a reasonable time with the county treasurer and a new certificate of number assigned in the same manner as provided for in an original assignment of number.

(4) If an agency of the United States government has in force a comprehensive system of identification numbering for motorboats in the United States, the numbering system employed pursuant to this part by the department of justice must be in conformity.

(5) A certificate of number and a registration decal issued under this part are effective unless terminated or discontinued in accordance with the provisions of this part.

(6) If ownership is transferred, the purchaser shall notify the county treasurer within a reasonable time of the acquisition of all or any part of the purchaser's interest, other than the creation of a security interest, in a motorboat, sailboat, or personal watercraft numbered in this state or of the loss, theft, destruction, or abandonment of the motorboat, sailboat, or personal watercraft. The transfer, loss, theft, destruction, or abandonment terminates the certificate of number for the motorboat, sailboat, or personal watercraft. Recovery from theft or transfer of a part interest that does not affect the owner's right to operate the motorboat, sailboat, or personal watercraft does not terminate the certificate of number.

(7) A holder of a certificate of number shall notify the county treasurer within a reasonable time if the holder's address no longer conforms to the address appearing on the certificate and shall furnish the county treasurer

with the new address. The department of justice may provide by rule for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or the alteration of an outstanding certificate to show the new address of the holder.

(8) (a) The number assigned must be painted on or attached to each outboard side of the forward half of the motorboat, sailboat, or personal watercraft or, if there are no sides, at a corresponding location on both outboard sides of the foredeck of the motorboat, sailboat, or personal watercraft. The number assigned must read from left to right in Arabic numerals and block characters of good proportion at least 3 inches tall excluding border or trim of a color that contrasts with the color of the background and be so maintained as to be clearly visible and legible. The number may not be placed on the obscured underside of the flared bow where it cannot be easily seen from another vessel or ashore. Numerals, letters, or devices other than those used in connection with the identifying number issued may not be placed in the proximity of the identifying number. Numerals, letters, or devices that might interfere with the ready identification of the motorboat, sailboat, or personal watercraft by its identifying number may not be carried in a manner that interferes with the motorboat's, sailboat's, or personal watercraft's identification. A number other than the number assigned to a motorboat, sailboat, or personal watercraft or granted reciprocity under this part may not be painted, attached, or otherwise displayed on either side of the forward half of the motorboat, sailboat, or personal watercraft. A registration decal issued under this part must be placed next to the identifying number located on the left side of a motorboat, sailboat, or personal watercraft or, if there are no sides, at the corresponding location on the left outboard side of the foredeck of the motorboat, sailboat, or personal watercraft.

(b) The certificate of number must be pocket size and available to federal, state, or local law enforcement officers at all reasonable times for inspection on the motorboat, sailboat, or personal watercraft whenever the motorboat, sailboat, or personal watercraft is on waters of this state.

(c) Boat liveries are not required to have the certificate of number on board each motorboat, sailboat, or personal watercraft, but a rental agreement must be carried on board livery motorboats, sailboats, or personal watercraft in place of the certificate of number.

(9) Fees, other than the fee in lieu of tax, collected under this section must be transmitted to the department of revenue, as provided in 15-1-504, ~~for deposit. The department of revenue shall deposit \$5 of the fee collected under subsection (1) in the account established in [section 7] and the remainder in the state general fund.~~

(10) An owner of a motorboat, sailboat, or personal watercraft shall within a reasonable time notify the department of justice, giving the motorboat's, sailboat's, or personal watercraft's identifying number and the owner's name if the motorboat, sailboat, or personal watercraft is transferred, lost, destroyed, or abandoned or within 60 days after a change of the state of principal use or if a motorboat becomes documented as a vessel of the United States. Senate President Tester introduced the Honorable Chief Justice Gray to the joint session. Chief Justice Gray made the following remarks:

"Speaker Matthews, President Tester, Members of the 59<sup>th</sup> Montana Legislature, distinguished guests, fellow Montanans:

I am honored to report to this joint session of the 59<sup>th</sup> Montana Legislature—and the people we all serve—on Montana's Judicial Branch of government: who we are, our successes and our challenges. Before I do that, let me express my sincere thanks for this time in your crowded schedule. It is important for you to hear about the Judicial Branch; but this time together is perhaps equally important because it provides an opportunity for members of all three Branches of Montana's government to be together in one place, to symbolically remind all of us of our shared commitment to serving the people of Montana as well as we possibly can in our separate, but equally important, roles. In the overall scheme of things, sharing this time together cements the lovely reality that far more binds us together in our government than has ever separated us.

Let me start with who we are in the Judicial Branch, beginning with the dedicated judges of Montana's Courts of Limited Jurisdiction, who are an integral part of nearly every community and, most assuredly, the backbone of our Montana judicial system. These 107 justices of the peace, city court and municipal court judges, together with their experienced and committed employees, handle more than 300,000 cases each year. Their dedication, professionalism and commitment to delivering timely and quality justice to the citizens of our state are a model for us all.

Next, please be aware of the 42 men and women who serve as District Court judges in all 56 counties in Montana, divided into 22 judicial districts. District Court cases involve the most complicated problems human beings can devise, both civil and criminal. On a daily basis, District Court judges make decisions dramatically affecting individuals, families, businesses and communities. They and their talented staff are passionately dedicated to the law, the Constitution and the public and, for that, we owe them immense gratitude.

HOUSE JOURNAL  
TWENTY-SEVENTH LEGISLATIVE DAY - FEBRUARY 3, 2005

Many of you already know my colleagues on the Supreme Court. Montana's highest court—together with our hardworking and dedicated judicial assistants, law clerks and staff attorney—work with incredible diligence to handle a heavy and ever more complex caseload. In 2004, the Supreme Court resolved 800 cases, nearly half by written opinion. In addition, we totally revamped the ethical rules for Montana attorneys, made our first trip ever to Glendive—so the folks in eastern Montana would have the opportunity to experience an oral argument before the Montana Supreme Court—and worked on improvements in various areas related to the administration of justice such as access to justice issues. The Justices are enormously dedicated to serving the people of Montana and to upholding the people's document—our Montana Constitution.

With that abbreviated background on the Judicial Branch, let me touch on just a few of our many accomplishments in recent years. And let me start by confessing that when I stood before the joint session four years ago, as the new Chief Justice, I envisaged a very different term as Chief. But—as the old saying or “curse” goes—“may we live in interesting times.” And did those folks ever serve up some interesting times for the Judicial Branch—including the Chief Justice—in 2001, when they enacted state assumption of District Court expenses during the closing days of the 57<sup>th</sup> Legislature!

State assumption was a visionary action by the Legislature. But I believe I can say—without fear of contradiction—that state assumption was much more complex, more labor-intensive and more costly than anyone anticipated. And so, most of the Judiciary's biggest recent accomplishments have related to state assumption, which came into being just 2½ years ago. To a large extent, the “major” dust has now settled regarding this challenging and complicated transition. In less than three years, we have created order out of what seemed chaos. We have brought order and timeliness to the process of paying the bills the Legislature obligated us to pay, and all District Courts are operating under a unified set of policies relating to state assumption. In one fell swoop, the District Court employees who came to us with state assumption on July 1, 2002, grew our Branch from a mere 103 FTE to 375 FTE. Those employees are now working under a single Judicial Branch compensation and classification plan. I am confident in reporting that, while state assumption continues to be a work in progress, we have successfully accomplished a major transition that in other states typically has taken many years and many more resources.

I also want to highlight just some of the major successes in Montana's Youth Courts achieved as part of state assumption. Chief probation officers, under the support and guidance of District Court judges wearing their Youth Court “hats,” have worked steadily and creatively to achieve uniformity and consistency across the 22 judicial districts. By the time this 59th Legislature adjourns, Youth Courts in our state will share a single, automated risk assessment system. This new web-based system will dramatically improve the Youth Courts' ability to identify the needs of at-risk youth, efficiently target prevention and intervention services for those youth, and enhance public safety in our communities. We will roll this assessment tool out with a statewide information-gathering system which ultimately will provide a statewide “report card” on how well our Youth Courts are doing business. We also have centralized the purchase of drug testing kits through a state contract at a much-reduced cost. And, as a final example, we have adopted uniform complaint resolution forms and procedures to investigate and process any complaints against Youth Court staff. These are monumental strides for the Youth Court system—and the Montana children, families and communities they serve. These accomplishments also are shining examples of the wisdom of state assumption.

Much of the credit for success of state assumption lies, of course, with the District Court Council created by the 2001 Legislature in the state assumption legislation. This Council, which I chair, has four District Court voting members, and representatives of juvenile probation, Clerks of District Court, court reporters and the Montana Association of Counties. Needless to say, all very busy people. But the District Court Council—with the extremely able and seemingly tireless staff from the Court Administrator's office—gives whatever time and energy is needed to the challenges of quickly, but carefully, transitioning District Courts into state assumption.

Moving away from state assumption-related matters, I am proud to tell you that our District Court judges continue to approach the administration of justice creatively. A number of what are commonly called “problem-solving courts” have been established in Montana, through the dedication and commitment of judges and members of various communities who are attempting to solve underlying problems such as drug and alcohol dependency, which impact so heavily on the safety of families and communities. The newest of these started just recently in Judge Tom McKittrick's court in Great Falls. I hope to visit it soon, as I have visited several of the others. These newer approaches to the administration of justice are incredibly rigorous for the participants and, so far, very successful. I was moved to tears when I spoke at a “graduation ceremony” in the Gallatin County treatment court, where I had the honor of meeting a man who had been a drug addict with a life in shambles for 20+ years, and who was drug-free for the first time, employed and tending to his family—all as a result of the 18-month treatment court program. These

HOUSE JOURNAL  
TWENTY-SEVENTH LEGISLATIVE DAY - FEBRUARY 3, 2005

problem-solving courts are very labor intensive and, therefore, somewhat costly on the “front end.” I am proud that some Montana judges and their communities have begun, and maintained, these creative courts with federal and local monies. When the Judicial Branch becomes financially healthy, I hope we can work together to fund these special courts—and more like them—throughout the state.

Finally, in the area of information technology, where our resource needs are so great, I am pleased to report that—even with limited resources—the Judicial Branch has made important improvements in the past 18 months. We have installed Full Court, a modern case management system, in 100 of the approximately 160 Courts of Limited Jurisdiction. This step alone substantially improves the way judicial business is done in our busiest courts. Even more exciting, we will electronically link these courts and create a single repository for Limited Court information by September of this year, with the assistance of a federal grant. Working in partnership with the Department of Justice and others who depend on criminal justice information, convictions and sentences will be reported quickly and electronically. As you can readily imagine, this will dramatically increase the accuracy and timeliness of data and will eliminate the slow, labor intensive, paper-based processes currently in place. From a technology standpoint, Montana’s Courts of Limited Jurisdiction are in better shape than they have ever been.

The Judiciary continues to face major challenges, of course, so I need to visit with you about just some of our budget proposals to address those challenges. As with all branches of government and the people we serve, our needs are many. But we have limited our budget request to those proposals which are truly essential for the Judicial Branch to function effectively, efficiently and in a manner which provides accessibility of public records in the Judicial Branch to the people of Montana.

Of course, this brings me immediately back to the information technology needs of Montana’s Judiciary. In our modern world, efficiency demands technology; and accountability demands technology in equal measure. As we all know, technology has revolutionized government’s capacity to collect and sort data, provide information and enhance services. Regrettably, the extensive information technology common in the Legislative and Executive Branches simply does not exist in many areas of the Judicial Branch. And I must point out that no funding for IT hardware, software, connectivity or staff came along with state assumption. It is not a “fault” thing—simply a truism that in those hectic last days of the 2001 Session no one was thinking about the IT-related costs of a hugely expanded Judicial Branch.

Montana’s District Courts, especially, are in dire need of modern information technology tools. We are grateful that both former Governor Martz and Governor Schweitzer included, in their budgets, one-time-only money to modernize information technology in the District and Limited Jurisdiction Courts more rapidly, so we can finally get all Montana’s trial courts on the same page at the same time. It is inefficient, wasteful and disruptive to be installing new systems in some courts, while still “patching” old systems in other courts. We ask your support for these proposals.

Stable, long-term and adequate funding is essential to maintain modern information technology in all our courts in the Twenty-First century. We desperately need technology to effectively manage court operations, to report data to the Legislature in a timely, consistent and reliable manner, and to be accountable to those who pay for and rely on court services. Had Montana’s fiscal situation been less dire two years ago, we would have fought for general fund funding for the Judiciary’s ongoing IT needs, but it simply was not going to happen. So, instead, and at our request, the 2003 Legislature increased the IT surcharge to increase resources for court technology. The increase helped, but our experience in the past 18 months has proven beyond a doubt that the surcharge is not an adequate, efficient or long-term solution for funding well-planned, cost-effective information technology for Montana’s courts. Consequently, we have proposed several solutions for funding essential court technology, and Governor Schweitzer’s budget joins us in recommending general fund funding for operating basic IT tools for Montana’s courts. In addition, we will present bonding legislation for improvements in our information technology. We urge you to thoughtfully consider and approve these proposals; without them, Montana’s courts simply cannot do their work or efficiently exchange information with the other Branches, other governments, private businesses and citizens having business with the courts.

Our next major challenge is to more fully implement the vision of state assumption which was set out in the interim study done before the 2001 Session called “Simplification in the 21<sup>st</sup> Century.” That vision of state assumption is to “provide a uniform, timely and quality judicial system” for Montana. As recognized by the “Simplification” report, the District Courts came into the state system with very uneven staffing and staff compensation levels. Many judicial districts still lack basic, minimum levels of staffing, which creates too many delays in the judicial process. I ask for your support for our conservative proposal for additional staff in the District Courts. Similarly, we have proposed

HOUSE JOURNAL  
TWENTY-SEVENTH LEGISLATIVE DAY - FEBRUARY 3, 2005

a very modest amount to start moving employees doing the same work in different District Courts toward pay equity; the existing inequities are simply unfair and result from the pre-assumption 56-county approach. Please help us take these important steps in furthering the goals the Legislature set for state assumption.

In order to get a handle on Court workloads and needs, the Judiciary is also requesting—and both former Governor Martz and Governor Schweitzer recommend—a one-time-only appropriation for a comprehensive judicial workload assessment study. Such a study will provide logical, measurable data for assessing judicial and staff resource needs, and will help us all answer the questions about court resource needs that have bedeviled Legislative and Judicial policymakers for decades. Such a study has been successfully completed in other states struggling with similar resource issues, but at a significantly higher cost. Neither we nor you currently have the tools and standards necessary for making responsible resource allocation decisions and for ensuring that we have clear, measurable standards for accountability to the public we serve.

Paying the costs of indigent defense remains a very serious problem in the District Court variable budget, which covers criminal defense for the poor, counsel for indigent Montanans facing commitment to a mental facility or the loss of parental rights, and counsel for the most vulnerable of our citizens—children involved in court proceedings—among other things. Some of you will remember that last session I requested, cajoled, nudged and, indeed, pleaded for adequate funding of these costs the Legislature obligated us to pay. I asked not to be forced into a supplemental appropriation situation this session. But fiscal times were dire in Montana, and the needed funds were not provided. Unfortunately, but not surprisingly, the expenses for these variable budget services have far exceeded the amount funded by the 2003 Legislature. The Judiciary currently is anticipating a supplemental request of about \$6.8 million because, frankly, how many Montanans require these services simply is not a matter which we or anyone can control, unless you want prosecutors to dismiss cases involving people entitled to state-funded legal representation. So far, we have kept the wolf from the door by delaying purchases and reducing operating expenses. We cannot, however, continue to starve other portions of the Judicial Branch's budget to pay these bills you obligated us to pay. That was not the vision for state assumption. I urge you to support our crucial request for supplemental funding for these essential services.

The Judicial Branch has had many successes and faces more challenges. I am proud of our successes and confident that you will fairly and constructively help us address the remaining challenges.

I am most proud that Montanans who seek resolution of their disputes through our courts—established expressly for that purpose—have their cases handled fairly by judges and staff who are competent and committed. The Judicial Branch continues working to ensure that every Montanan has equal access to our courts, and that the administration of justice is fair, impartial and accountable to the people we serve. We believe in these goals and strive to meet them every day.

I know that all of you aspire to correlative goals on behalf of your—and our—constituents. As elected officials, we are all committed to serving our constituents with dignity and to giving them the best that is in us. Let us remember together that we are part of a system of government—three separate branches with built-in checks and balances—that is the envy of people around the world. Let us remember together the sacrifices that have been made—and continue to be made—to protect our form of government and to enable others to attain it. If we keep these fundamental ideas close to our hearts and minds, these will be our proudest moments—and we will have faithfully discharged our duties to the people we all serve.

Thank you for your valuable time and considerate attention. The Judicial Branch applauds the critical work you do. On behalf of Montana's Judges, Justices and staff, I wish you a productive and successful 59<sup>th</sup> Legislative Session."

President Tester thanked Chief Justice Gray and directed the escort committee to escort Chief Justice Gray from the joint session.

Senate Majority Leader Ellingson moved that the joint session of the 59th Legislature, convened to receive the address from Chief Justice Gray, be adjourned. Motion carried.

Joint session adjourned at 1:40 p.m.

**"61-5-107. Application for license, instruction permit, or motorcycle endorsement.** (1) Each application for an instruction permit, driver's license, commercial driver's license, or motorcycle endorsement must be made upon a form furnished by the department. Each application must be accompanied by the proper fee, and payment of the fee entitles the applicant to not more than three attempts to pass the examination within a period of 6 months from the date of application. A voter registration form for mail registration as prescribed by the secretary of state must be attached to each driver's license application. If the applicant wishes to register to vote, the department shall accept the registration and forward the form to the election administrator.

(2) Each application must include the full legal name, date of birth, sex, residence address of the applicant [and the applicant's social security number], must include a brief description of the applicant, and must provide the following additional information:

(a) the name of each jurisdiction in which the applicant has previously been licensed to drive any type of motor vehicle during the 10-year period immediately preceding the date of the application;

(b) a certification from the applicant that the applicant is not currently subject to a suspension, revocation, disqualification, or withdrawal of a previously issued driver's license or any driving privileges in another jurisdiction and that the applicant does not have a driver's license from another jurisdiction;

(c) a brief description of any physical or mental disability, limitation, or condition that impairs or may impair the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; ~~and~~

(d) a brief description of any adaptive equipment or operational restrictions that the applicant relies upon or intends to rely upon to attain the ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway, including the nature of the equipment or restrictions; ~~and~~

(e) if the applicant is a foreign national whose presence in the United States is temporarily authorized under federal law, the expiration date of the official document issued to the applicant by the bureau of citizenship and immigration services of the department of homeland security authorizing the applicant's presence in the United States.

[(3) The department shall keep the applicant's social security number from this source confidential, except that the number may be used for purposes of subtitle VI of Title 49 of the U.S.C. or as otherwise permitted by state law administered by the department and may be provided to the department of public health and human services for use in administering Title IV-D of the Social Security Act.]

(4) (a) When an application is received from an applicant who is not ineligible for licensure under 61-5-105 and who was previously licensed by another jurisdiction, the department shall request a copy of the applicant's driving record from each jurisdiction in which the applicant was licensed in the preceding 10-year period. The driving record may be transmitted manually or by electronic medium.

(b) When received, the driving records must be appended to the driver's record created and maintained in this state. The department may rely on information contained in driving records received under this section to determine the appropriate action to be taken against the applicant upon subsequent receipt of a report of a conviction or other conduct requiring suspension or revocation of a driver's license under state law. The department shall adopt necessary rules governing sales. (iii) If the department does not have a digitized photograph or signature record of the renewal applicant from the expiring license, then the department may require the renewal applicant to submit a personal photograph and signature that meets the requirements prescribed by the department.

(c) A license issued to a person who is under 21 years of age expires on the licensee's 21st birthday.

(d) A license issued to a person who is a foreign national whose presence in the United States is temporarily authorized under federal law expires, as determined by the department, on either:

Faith Matt, the youngest daughter of Chairman Fred Matt and his wife, Tammy, sang the National Anthem. Tony Incashola, tribal member of the Pend d' Orielle Tribe of the Flathead Nation, gave the opening prayer.

Senate Majority Leader Ellingson moved the President be authorized to appoint a committee of four to notify the Honorable Chairman Matt that the body was in joint session and ready to receive his address. Motion carried.

Senate President Tester appointed Senator Pease, Senator Cobb, Representative Jayne, and Representative Roberts to escort the Honorable Chairman Matt into the House Chamber.

The committee escorted Chairman Matt into the chambers.

Senate President Tester introduced Chairman Matt to the joint session. Chairman Matt made the following remarks:

"Thank you. President Tester, Speaker Matthews. Thank you for inviting me to speak to you today.

I am so proud of my daughter Faith and her beautiful voice and my wife Tammy, my daughter April and her fiancé Ryan and my mother-in-law Greta, who also join me today.

Thank you to the Mission Valley Honor Guard that presented the colors. You have represented our Nation well when you put yourself in harm's way and you continue to do so through your community service. We have a proud legacy as Indians have the highest percentage of military service of any ethnic group in the United States since World War II.

Thank you, Tony. Your words are so healing.

I just greeted President Bush in Great Falls. The cowboy hats outnumber the ties and that is even in Indian Country.

Honorable Governor Schweitzer, thank you. In your swearing in ceremony, you welcomed Indians to the Capitol. In fact, you invited us to come in through the front door and we have. You asked that we send you our "Best and Brightest" tribal members and we sent names. You have asked us to join your team in record numbers. Montana Indians have been appointed to your Cabinet, your staff and to Montana boards and commissions. Your effort is extraordinary. We hope it will be one of the many legacies as a result of you being the Governor.

Over the past couple of years, you sat with the seven Tribal Councils and asked for our support. You told us you

HOUSE JOURNAL

would come back after you were elected...to save a seat for you in our tribal chambers.

Your trip with Attorney General Mike McGrath to consult with the Northern Cheyenne Tribes is historic. The Northern Cheyenne Tribes asked me to convey their sincere thank you for the position you have taken with the Tongue River.

For centuries, promises made to Indian people have been made but broken. You kept your promise and we are grateful.

Thank you, Lt. Governor Bolinger, who is not here today because he is in our national capital. I understand that your first official trip as Lt. Governor was to Blackfeet Country. That speaks volumes to your commitment to Indian people. Your presence and participation on issues important to us will be key over the next few years.

Thank you, distinguished members of the Senate and House of Representatives and in particular, our Native American legislators: Norma Bixby, Margaret Campbell, my representative Joey Jayne, Carol Juneau, Veronica Small-Eastman, Jonathan Windy Boy, and Senators Gerald Pease and Frank Smith. We look to you for leadership as the legislative session continues.

Blackfeet Chairman Allan Talks About, Chippewa Cree Chairman Chance Houle, Crow Chairman Carl Venne, Ft. Belknap is represented by Julia Doney, Ft. Peck Chairman Ray Eder, Northern Cheyenne Chairman Eugene Little Coyote, and Chairman John Sinclair from the Little Shell Band of Chippewa Tribe. Thank you, tribal leaders, for the honor to represent you as the Chairman of the Montana Wyoming Tribal Leaders Council.

On behalf of the Confederated Salish and Kootenai Tribes and the Tribal Nations across the state of Montana, I am honored to present the State of the Tribal Nations and I am proud to report our Indian Nations are strong and on the move.

Recently, the great Crow Nation changed their constitution and it had brought significant changes and opportunities for economic development and tapping the tribe's vast minerals with the purpose of creating jobs for their members and the state of Montana.

The Ft. Belknap Tribes developed an Aquatic Resource Protection Ordinance to support the nationwide goal of no net loss of wetlands.

The Ft. Peck Tribes are proud to report that they are active participants in state politics with the election of two tribal members, Representative Margaret Campbell and Senator Frank Smith. Senator Smith also represents the Tribes on the Ft. Peck Tribal Executive Committee.

The Blackfeet Tribal Nation will see nearly \$100,000,000 in road construction by the year 2009.

The Tribes at Rocky Boy are proud to report that they began to operate a Tribal Temporary Assistance for Needy Families Program in November 2004.

The Charles Russell painting that dominates this Chamber serves as reminder of the historic relationship between the Tribes and those who came west to this great country. Charlie Russell recognized that the coming of Lewis and Clark had the greatest impact on the Indian people, as our way of life was forever changed. In 1805, the Native American economy was strong. Our families were strong units. We depended on each other for our survival. There was food, clothing and shelter with a strong religion and value system.

The mural depicts an event that took place on September 4, 1805 when Lewis and Clark's journey embarked on Salish territory at Ross's Hole. The encounter between them and the Salish tribal people was a monumental event that ultimately led to the success of the expedition. The Salish people graciously provided the explorers with fresh horses, food and other vital supplies that were needed for their trek across the Bitterroot Mountains to the Pacific Ocean.

Without our assistance, who knows what the outcome of the journey would have been. It was the first partnership between the tribes and those that came from other nations to escape religious persecution and economic disadvantage. Today, we begin another partnership. It is a new day in Montana. We look forward to working with the elected leaders in Helena for laws and policies that will strengthen our government-to-government relationship.

HOUSE JOURNAL  
THIRTY-SECOND LEGISLATIVE DAY - FEBRUARY 9, 2005

During this legislative session, you will hear many ideas to help make Montana even better, yes, better than the last, best place as we know it.

As you deliberate on these idea, please consider the impact on the Indian Nations. Jobs are a top priority. Nowhere are jobs more needed than on Montana's reservation. Glacier and Rosebud counties have some of the highest unemployment rates across the state and nation. All but one Montana reservations have unemployment rates over 50%, some as high as 85%. If those rates were anywhere else in the state, an emergency would be declared. This is unacceptable and we must work together to fix it.

The fix begins by reauthorizing the Tribal Economic Development Commission for four more years. After a slow start, the Commission is beginning to make advances at bringing businesses and employment to our communities.

The Governor's budget recommends \$1 million for Economic Development in Indian Country. This is just a start, but much needed. I urge your support. Remember, the State of Montana cannot move ahead economically without bringing the poorest along, and in Montana, the poorest live on our reservations.

On Thursday, I had a chance to hear President George W. Bush speak about his plan for Social Security. He reports that it is in crisis and needs fixing. The people I represent just want a chance to pay social security taxes, through good paying jobs. We need your help to make that American Dream possible for each tribal member.

Education is another major issue facing this legislative session. Governor Schweitzer and Superintendent of Public Instruction Linda McCulloch unveiled a plan to provide an additional \$80 million to address Judge Sherlock's court order to ensure a basic system of quality education for Montana students. It includes funding for the Judge's order for Indian Education for All. This is a start. One that will allow the Tribes to create the needed infrastructure for this to be successful and tribal specific curriculums to be taught in all schools.

Let us remember, Indian Education for All is for all Montanans, not just Indians. It is only through education that the ignorance of our culture and values can start to address the unknown about tribal way of life that will help to end racism and discrimination. All Montanans will benefit and our state will be better and our citizens stronger.

I urge your support for House Bill 16, which provides funding for non-beneficiaries attending tribal colleges. I have wondered why the students that receive this funding are called non-beneficiaries, when in fact they receive the biggest benefit: a quality education while staying close to home and family.

Each of our seven reservations is home to nationally accredited institutions of higher learning. They are vital parts of our communities and the surrounding communities. These institutions are not just for tribal members but many non-Indians also attend, receiving nursing degrees to vocational certifications.

However, since the tribal colleges are funded based on the number of enrolled tribal members, they do not receive any funding for the non-Indians that attend. This bill would provide funding for the non-Indians students who attend these colleges. Yes, the non-beneficiaries. Thank you, Representative Rick Ripley from Wolf Point, Montana, for sponsoring this important legislation.

Healthcare is another issue of major significance to reservations. Medicaid redesign is a major issue of this 59<sup>th</sup> legislative session. Several bills have been introduced including one by Senator John Cobb that would authorize the submittal of a waiver to expand health care to uninsured Montanans. Another House Bill 452, to implement the Medicaid Redesign Team's recommendations for health programs for Indians. Medicaid and Children's Health Insurance Program are vital to many tribal members and I urge your careful consideration of this legislation.

Plans are being generated to spend the additional revenue generated from Initiative 149 including a program to ensure our tribal elders have access to prescription drugs. This is one of the most important services we can provide all senior citizens from across this state. Thank you, Senator Tester, for sponsoring this important legislation.

And please fully fund the Low Income Energy Heating Assistance Program. Don't have elders, the keepers of culture, and children have to make the decision: to heat or eat!

A number of bills have been introduced in the House and Senate, by Republicans and Democrats representing eastern and western Montana, from large cities and rural areas, to address the growing substance abuse problem in our state.

HOUSE JOURNAL  
THIRTY-SECOND LEGISLATIVE DAY - FEBRUARY 9, 2005

This truly is a bipartisan effort as no one from Libby to Miles City or from Browning to Lame Deer can escape from the devastating effects of tobacco, alcohol abuse and methamphetamine. Nowhere is the problem more keenly felt than in our tribal communities. The disturbing effects on our families with the loss of life and the potential of many young people is indescribable.

The financial drain on our government is untold. The cost of social services, incarceration and court services are just a few impacts that can be identified. Please join with the group of lawmakers, such as Representative Don Roberts from Billings, to seek a coordinated and consolidated effort to address this problem.

On a tribal note, we extend a thank you to Senator Shockley for his sponsorship of Senate Bill 187 to provide "Full faith and credit for Salish and Kootenai Tribal fish and game citations." It will soon be transmitted to the House of Representatives after passing the Senate with nearly a unanimous vote of 49 in favor and only 1 dissenting vote.

Let us imagine a state without hunger, including our reservations. Let us imagine a state without poverty, including our reservations. Let us imagine a state without prejudice, including all people of color, race, gender, religion and sexual orientation. Let us imagine a state where all families do not fear a child getting sick and not being able to provide her care, including our reservations. Let us imagine a state where anyone who wants to work, can work, including our reservations.

Legislators, as you deliberate to make laws that govern our state, let Charlie Russell's painting remind you of your obligation to protect include Native people as we approach the 200<sup>th</sup> Anniversary of their meeting with the Salish. And let it begin, today. Lem Lech."

Chairman Matt and the body rose for the presentation of an Honor Song.

President Tester thanked Chairman Matt for his address and for the Honor Song. President Tester requested the committee escort Chairman Matt from the Joint Session.

Senate Majority Leader Ellingson moved that the Joint Session convened to receive the State of the Tribal Nations from the Honorable Chairman Matt be adjourned.

Joint Session adjourned at 2:50 p.m.

"Good afternoon. I'm so very pleased to be here with you today.

Thank you, President Tester, Speaker Matthews, Senator Keenan, Representative Wanzenried and Representative Brown for bringing us together to focus on Montana's children and their future.

I'd also like to recognize Governor Schweitzer and my other colleagues and friends in the Executive and Judicial branches of Montana government, as well as the Public Service Commissioners.

And a very special thank you to my husband, Bill, for being here with me and supporting my dedication to Montana's kids for another four years.

I begin my State of Education Address with sincere words of thanks for the thousands of dedicated teachers, administrators, school staff and trustees. You work tirelessly, helping Montana's children learn and prepare for successful lives. Simply put, you change lives.

One of those educators is Bud Williams, my Deputy Superintendent. Every day, Bud brings 30 years of

experience, expertise and caring to the kids of Montana.

Would all educators, school staff or trustees in the audience, both on the floor and in the gallery, please stand so we may recognize you? From all of us here, and from all Montanans: Thank you!

I'd like to specifically thank the kids who are watching this address live using video streaming technology. One of those schools is Lockwood School in Billings. Please join me in greeting Mrs. Johnson and her students.

This 59th Legislative Session will be forever remembered as the session that 150 citizens defined an education system that will affect every single Montanan, their children and their grandchildren. It is an historic opportunity. An opportunity that constantly returns us to an event 33 years ago.

It was a defining moment in 1972 when the delegates to the Montana Constitutional Convention put aside partisanship, regional differences and personal agendas and focused on Montana's future. Today, when each of us takes the oath of office, we swear to uphold the document they created. Their task was daunting, but their achievement is resounding.

In the area of education, they agreed upon 15 powerful words: "The legislature shall provide a basic system of free quality public elementary and secondary schools."

It is up to you to make the most of the opportunity before you -- to make that constitutional statement a reality and have an impact on future generations.

This session is about "moving education forward in Montana." Lawsuits have been filed, hearings have been held, and the courts have ruled. That is past. Now the solution is back where it belongs, in your hands. Your task, like that of the delegates to the constitutional convention, is to focus on the future - on the quality of the schools your children, and their children, will attend.

Let me talk about what these 15 words in our Constitution means to me: Our country was built on the very dream of "wanting better for our children than we have ourselves." I am living my father's dream. I was the first in my father's family to graduate from high school. My father left school in the eighth grade to go to work and help feed his younger brothers and sisters. He wanted more for his children, and he knew education was the key to making that possible. My parents sacrificed much for us. Their goal was simple: they wanted us to have a better life than they had.

My story is not unique. Parents all across Montana know the meaning of a quality education. It is in the dreams they have for their children.

Now it is your chance to define a quality education that makes parents' dreams a reality for their children. It must be a definition that encompasses both the aspirations of those dreams and the tangible reality that makes those dreams achievable. A quality education must include standards set forth by the Board of Public Education. It must provide assessments to make sure our children are succeeding. It must address the needs of Montana's low-income children, at-risk youth, and special needs students, both challenged and gifted. It must reflect the needs of our American Indian students. It must allow us to recruit and retain high-quality teachers. It must allow us to provide kids with textbooks, library materials, and the technology they need to compete in a changing world. It must provide safe school buildings and buses. And finally, it must be a quality education that will continue to adapt as times change.

Educating Montana's children is a complex process in today's world. The definition you will come up with will undoubtedly be complex as well. But, the ideas are simple. It is about our future, our economy and our kids!

You also have an opportunity and an obligation to make up for 30 years of neglect to recognize another promise made in our Constitution; to recognize the distinct and unique cultural heritage of Montana's American Indians.

While American Indians make up about 6 percent of our total state population, American Indian students make up about 11 percent of our students in public schools. It is the only growing student population.

There is an alarming gap in the achievement levels of Indian and non-Indian students in Montana. Did you know that almost half of Montana's American Indian students do not graduate from high school? These factors affect

HOUSE JOURNAL  
THIRTY-FOURTH LEGISLATIVE DAY - FEBRUARY 11, 2005

the lives of students, their parents, their communities, and the economy of Montana. All students in Montana must achieve at the very highest level to which they are capable. Anything less is absolutely unacceptable!

Last fall, I hosted an Indian Education Summit that brought together 200 educators and leaders to help me find answers to reducing the achievement gap and to fully implement Indian Education for All Montanans.

All Montana students, and frankly, all of us, deserve the opportunity to understand the rich American Indian culture and history specific to Montana.

Thank you, Governor Schweitzer, for making available in your state budget the opportunity for my office to begin our significant work on Indian Education for All.

We want to do it right and respectfully, which is why the Montana Advisory Council on American Indian Education will be so vital to this effort.

As a teacher I wanted to do the right thing when teaching about Montana's Native people. But I was not always sure how to go about it. It is absolutely critical that all Montana teachers get the assistance they need to fully implement Indian Education for All. I am excited about bringing together educators and other experts to develop resources and hands-on materials to use in our classrooms.

I am thrilled to have this chance to finally make MCA 20-1-501 more than a paper promise!

What stands before us is an historic task to develop a funding system. We must venture into uncharted waters and understandably, there will be some trepidation. It is quite a task. Working together we will develop a funding system that works for all our students.

After more than a decade of inadequate funding, this process will not be completed overnight. It may not even be solved in one Legislative Session.

You must take the time you need to research solutions, design a funding system that provides a quality education, and takes into account taxpayers. These are important issues. Montana's future literally depends on them. My staff and I will work with you as long and as hard as it takes to make sure we get a system that is right for Montana's kids and for Montana's future.

Until a new funding system is developed and implemented, I offer you as a "Bridge to the Future" my three bills for funding options that our schools desperately need now:

1. House Bill 125, carried by Rep. Holly Raser, will be in committee later this afternoon. HB 125 increases the basic and per-student entitlement by \$350 per elementary student and \$200 per high school student. Also included in the calculation is the inflation adjustment as adopted by the 2003 Legislature. Thank you, Rep. Raser!

2. House Bill 111, carried by Rep. Gary Branae, creates a new funding mechanism that responds to Montana's decline in school enrollment. HB 111 recognizes that with the decrease of a few students in a school, the school still needs to provide third grade, fourth grade, and so on, and needs to offer music, PE, Library, and still needs to turn on the heat and lights, but now has significantly less funding. HB 111 provides school districts a \$1,000 per-educator entitlement based on the number of professional staff. The local school trustees decide how the funds best serve their students. Thank you, Rep. Branae!

3. House Bill 47 provides full-time funding for kindergarten students. This bill does not require schools to offer full-time kindergarten, nor does it require parents to enroll their child in full-time kindergarten. Children who are enrolled in full-time kindergarten programs demonstrate:

- Greater progress in literacy, math and general learning skills,
- Significant gains in social and emotional development,
- Fewer student grade retentions and special education placements, which saves the state money,
- Higher scores on achievement tests,
- And, reduced behavioral problems.

HB 47, carried by Rep. Kathleen Galvin-Halcro, gives some of our most vulnerable kids a helping hand. This bill is all about kids and local control and parental choice. My thanks to you, Rep. Galvin-Halcro!

Recruiting and retaining high quality teachers in Montana is one of our most significant challenges. Central to this challenge is our beginning teacher's salaries that rank 50th in the nation - dead last -- and too many of our

HOUSE JOURNAL  
THIRTY-FOURTH LEGISLATIVE DAY - FEBRUARY 11, 2005

teachers lack health benefits. Unless we can find ways to help schools attract and keep high quality teachers, we will continue to see good teachers leave our state. Without question, quality teachers are at the core of a quality education.

A top priority of my administration is reading. As a longtime teacher and school librarian, I've seen how the demand for high levels of literacy has never been greater than it is today. The doors to school success, higher education and a good job will never open for many students, if we do not put a real focus on reading in our schools. We must ensure that our students' skills keep pace with society's demands of living in an information age that changes rapidly and is showing no signs of slowing down.

We know that if a student isn't reading at the 3rd grade level by the end of third grade, it is very difficult and very expensive to catch up. If they can't read, they can't do social studies or science or read math problems. Lack of reading skills is also a common reason for dropping out of school.

I began tackling this challenge four years ago by building reading partnerships and aggressively going after funding to support reading efforts in our classrooms.

Every summer teachers gather together for my READ Montana! Summit, affectionately known around the state as the "Summit on a Shoestring." We learn new techniques for teaching reading and explore how we want Montana's students to become successful readers.

So far, our office has competed for and received \$33 million in federal reading funds to target children in kindergarten through third grade. We've been able to put some concentrated programs in several schools across the state.

We've kicked off two efforts that partner reading and wellness. Our partnership with the Department of Public Health and Human Services, called the "The Reading Well 'n' Be Well, Read Well," provides a free book to all newly immunized kindergartners. We like to think that it takes the "sting out of immunizations." And "Food for the Mind," a partnership with MSU Team Nutrition and the Montana Reading Council, gives K-3 classrooms a book bag, filled with fun books on nutrition and physical activity, for students to take home and enjoy with their parents.

These efforts are beginning to make a difference in our schools. For example, Longfellow Elementary school in Great Falls, a recipient of our reading grants has seen a 16 point increase in fourth grade reading scores in the last three years. This is very significant progress. We will continue to build upon these successes.

Montanans have always placed a high value on education. Perhaps folks who value education the most are those who weren't in a position to take it for granted. You helped make the value of an education possible for many Montanans. Senate Bill 81, from last session, carried by Senator Cooney, enables me to award an honorary high school diploma to World War II, Korean War and Vietnam War veterans who did not receive a high school diploma because of military service.

One day these individuals were carrying textbooks, and the next day they were carrying weapons to protect our nation and preserve our freedom. After the war, many never returned to school, but began families and careers. They became role models and leaders in their communities.

Following the session in 2003, I hosted a graduation ceremony in the Capitol Rotunda for the first 16 veterans, some of whom had waited 60 years to receive their high school diploma.

There was not a dry eye in the audience as veterans walked proudly to the stage to receive their diploma. Mr. Knoll's personal thank you note told me of the 3,511 miles he and his wife journeyed from Southwest Missouri back to his home state of Montana to attend this graduation. Others traveled shorter distances, like the van carrying four veterans from the Columbia Falls Veterans Home and Mr. Little Dog from Browning whose proud granddaughter joined him to share his education moment. The stories go on and on and on.

Each and every one of the almost 300 honorary high school diplomas I have awarded to a veteran is associated with a personal and touching family story, a story that embodies the importance of public education and our dreams. Thank you for making possible the education dreams of these veterans and their families.

HOUSE JOURNAL  
THIRTY-FOURTH LEGISLATIVE DAY - FEBRUARY 11, 2005

We have a veteran with us today, who like my father, is committed to their children and grandchildren's dreams and, like my father, did not graduate from high school and served in WWII. I'd like to introduce you to Adam Schweitzer, our Governor's father.

The Governor and I, two members of Montana's executive branch, were blessed to have parents who valued education. As fathers you play a very important role in our lives. You not only have inspired us by your commitment to our country, but your commitment to education left a legacy of learning.

Mr. Schweitzer, it is a great honor and a pleasure to be able to award you a long awaited honorary high school diploma that acknowledges a lifetime of learning and achievement that has enriched the state of Montana and our country. Congratulations to both you and my Dad, two very deserving veterans and fathers.

Montanans' commitment to education is timeless, even though the educational needs of our country have changed since WW II.

Fifty years ago our economy was dependent on 60% of our workforce being unskilled labor, 20% skilled labor and 20% professional workers. Fast forward to 2005 where 20% of our workforce is still professional. But our demand for unskilled labor has dropped to 15% and skilled labor increased threefold. Now 65% of our economy depends on skilled labor.

The focus in our schools has also changed. Think about it. Kindergarten teachers are preparing their five-year-old students for career options that do not even exist today. That's how important education is to our economy!

Let me take a moment and tell you about the importance of a quality education for one student I taught in elementary school. He was born several years after the state had ratified those 15 important words in the state Constitution. He had good teachers (especially his school librarian) and he worked hard.

It doesn't seem like very long ago that I saw his class off when they graduated from 8th grade, but I know he went on and received a great high school education in Missoula. This student went on to serve his country in Iraq. Then he returned to Montana, and went to school at the University of Montana and then last year he did the strangest thing. He ran for the State Legislature. Now he has a desk right here in the third row of this chamber, representing the people of House District 91. Permit me to recognize my student, Representative Kevin Furey. I am extremely proud to be one of Representative Furey's teachers, to know that the lessons I taught him will not only have an impact on his life, but on those he represents.

We are proud of our Montana students and their test scores. Montana kids continue to score near the top in the nation in reading, science, and math. That's great but that's not good enough. Because now our kids are competing internationally. They're competing with students from South Korea and South Vietnam as much as they're competing with students from South Dakota and South Carolina. Kids from other states and countries that invest in education are catching up to us or passing us. Working together we need to make sure this trend doesn't continue. Your work this session is vital to these efforts.

Our kids are our future. They will become tomorrow's business, spiritual, community and school leaders. They will also become Montana's Legislators, Senators, Governors, Supreme Court Justices and State Superintendents.

It is our kids that will hold us to those 15 words in our State Constitution: "The legislature shall provide a basic system of free quality public elementary and secondary schools."

I have great faith in the commitment of the Montana Legislature to roll up your sleeves to move education forward in Montana. Together we will do what's right for Montana's kids.

Thanks to the students and educators all across Montana who tuned in to watch the Legislature today.

On behalf of Montana's 146,519 school children and all who work on behalf of public education in our state, I thank you for your time today and your interest in Montana's public schools.

My door is always open and I look forward to your visit."

However, a provisional ballot may not be counted if the election administrator cannot verify the elector's eligibility under the rules. If the ballot is provisional because of a challenge and the challenge was made on the grounds that the elector is of unsound mind or serving a felony sentence in a penal institution, the elector's provisional ballot must be counted unless the challenger provides documentation by 5 p.m. the day after the election that a court has established that the elector is of unsound mind or that the elector has been convicted and sentenced and is still serving a felony sentence in a penal institution.

(4) The election administrator shall provide an elector who cast a provisional ballot but whose ballot was not counted with the reasons why the ballot was not counted.

(5) A provisional ballot cast by an elector whose voter information is verified before 5 p.m. on the day after the election must be removed from its provisional envelope, grouped with other ballots in a manner that allows for the secrecy of the ballot to the greatest extent possible, and counted as any other ballot."

**"75-10-743. Orphan share state special revenue account -- reimbursement of claims -- payment of department costs.** (1) There is an orphan share account in the state special revenue fund established in 17-2-102 that is to be administered by the department. Money in the account is available to the department by appropriation and must be used to reimburse remedial action costs claimed pursuant to 75-10-742 through 75-10-751 and, except as provided in subsection (10), to pay costs incurred by the department in defending the orphan share.

(2) There must be deposited in the orphan share account:

(a) all penalties assessed pursuant to 75-10-750(12);

(b) funds received from the interest income of the resource indemnity trust fund pursuant to 15-38-202;

~~(c) funds allocated from the resource indemnity and ground water assessment tax proceeds provided for in 15-38-106;~~

~~(h)(f)~~ funds received from reimbursement of the department's orphan share defense costs pursuant to subsection (6).

(3) If the orphan share fund contains sufficient money, valid claims must be reimbursed subsequently in the order in which they were received by the department. If the orphan share fund does not contain sufficient money

HOUSE JOURNAL  
THIRTY-EIGHTH LEGISLATIVE DAY - FEBRUARY 16, 2005

to reimburse claims for completed remedial actions, a reimbursement may not be made and the orphan share fund, the department, and the state are not liable for making any reimbursement for the costs. The department and the state are not liable for any penalties if the orphan share fund does not contain sufficient money to reimburse claims, and interest may not accrue on outstanding claims.

(4) Except as provided in subsection (8), claims may not be submitted and remedial action costs may not be reimbursed from the orphan share fund until all remedial actions, except for operation and maintenance, are completed at a facility.

(5) Reimbursement from the orphan share fund must be limited to actual documented remedial action costs incurred after the date of a petition provided for in 75-10-745. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs.

(6) (a) The department's costs incurred in defending the orphan share must be paid by the persons participating in the allocation under 75-10-742 through 75-10-751 in proportion to their allocated shares. The orphan share fund is responsible for a portion of the department's costs incurred in defending the orphan share in proportion to the orphan share's allocated share, as follows:

(i) If sufficient funds are available in the orphan share fund, the department's costs incurred in defending the orphan share must be paid from the orphan share fund in proportion to the share of liability allocated to the orphan share.

(ii) If sufficient funds are not available in the orphan share fund, persons participating in the allocation under 75-10-742 through 75-10-751 shall pay all the orphan share's allocated share of the department's costs incurred in defending the orphan share in proportion to each person's allocated share of liability.

(b) A person who pays the orphan share's proportional share of costs has a claim against the orphan share fund and must be reimbursed as provided in subsection (3).

(7) If sufficient money remains in the orphan share fund on June 29, 2003, \$999,000 must be transferred to the general fund.

(8) If the lead liable person under 75-10-746 presents evidence to the department that the person cannot complete the remedial actions without partial reimbursement and that a delay in reimbursement will cause undue financial hardship on the person, the department may allow the submission of claims and may reimburse the claims prior to the completion of all remedial actions. A person is not eligible for early reimbursement unless the person is in substantial compliance with all department-approved remedial action plans.

(9) A person participating in the allocation process who received funds under the mixed funding pilot program provided for in sections 14 through 20, Chapter 584, Laws of 1995, may not claim or receive reimbursement from the orphan share fund for the amount of funds received under the mixed funding pilot program that are later attributed to the orphan share under the allocation process.

(10) For the biennium beginning July 1, 2003, and subject to the provisions of section 4, Chapter 199, Laws of 2003, the department may transfer funds from the orphan share fund to the environmental quality protection fund established in 75-10-704, the hazardous waste/CERCLA account established in 75-10-621, or both. The total amount transferred pursuant to this subsection may not exceed \$600,000."

Rep. Lange announced the House Republicans will caucus.

Rep. Bergren announced the House Democrats will caucus.

Speaker Matthews stated the House will recess until 9:15 a.m.

Rep. Stahl rose and stated "We have a young man with us today who has some very deep Montana roots. Some of those roots are in Helena, but they reach all the way up to my part of Phillips County. Patrick Lopach, who is an Honorary Page today. Patrick is 13 years old and attends C.R. Anderson Middle School. Patrick brought something with him today that I'm going to take a few minutes to tell you about.

Patrick's great, great, great, grandfather was Judge Cornelius Hedges. He was born in Massachusetts and received degrees from Yale and Harvard. He moved to Iowa, where he practiced law. He decided to move West and walked from Iowa to Montana in 1864. He walked to improve his health. He settled on Last Chance Gulch.

There's a lot I could say about Cornelius. Cornelius was our state's first Superintendent of Public Instruction. Some call him the "Father of Montana Education." An elementary school in Kalispell is named for him, as is a dorm at MSU, and as are mountain peaks in Yellowstone Park and just North of Helena in the Big Belts.

Cornelius later became a Montana judge and was also a member of the 1870 Washburn Expedition to the area that would become Yellowstone. Judge Hedges is said to have suggested that Yellowstone should become a National Park. It became our nation's first.

Judge Cornelius Hedges, a Republican, was the 1st Senate Minority Leader in our 2nd Legislative Session in 1889. In the 1st Session, they apparently felt they didn't need one.

One of Judge Hedges's sons was Henry. He left Helena for Northeastern Montana and ranched near Saco next to where my family's farm is now.

Another son, Willys, followed his father Cornelius into politics. He served in the House of Representatives, and he was Speaker in the 1905 Session, 100 years ago.

HOUSE JOURNAL  
FORTY-FIRST LEGISLATIVE DAY - FEBRUARY 19, 2005

Patrick is the proud owner of a very beautiful memento from that 1905 Session. Times must have been a little better one hundred years ago. At the end of the 1905 Session, Speaker Willys Hedges was presented with a lovely gold watch to honor his service. Patrick brought the watch with him today. The watch will be under the care of our Chief Clerk for the day.

Patrick, you should be proud of your family's Montana heritage. And we all should be proud of our heritage as Montanans. We should feel challenged every day to live up to that heritage.

Thanks for joining us today, Patrick, and thanks for letting us see your beautiful heirloom."

(1) On or before July 1, 2007, a local electricity supply entity that has adopted a plan for the transition of and service to the default supply customers of a public utility of the local electrical supply entity may file with the commission a petition that demonstrates that the transition of the default supply customers of a public utility to the local electricity supply entity under this section will not subject either customers in transition or the other default supply customers of a public utility to higher or more unstable default supply service rates over a 10-year planning period than would otherwise result if those default supply customers had not been transferred to the local electricity supply entity.

(2) (a) Unless the local electricity supply entity and the public utility otherwise agree, a plan for transition and service adopted by the local electricity supply entity in accordance with subsection (1) must contain, at minimum, the terms provided in subsections (2)(b) and (2)(c).

(b) The transition of the public utility's default supply customers within the local electricity supply entity's jurisdictional area to the local electricity supply entity must occur in four equal blocks of customers spread equally over a period of 2 years. Once the plan for orderly transition has commenced, all default supply customers of the public utility within the jurisdictional limits of the local electricity supply entity must be transferred to the local electricity supply entity.

(c) A customer of the local electricity supply entity:

(i) that has an individual account with an average monthly load demand of less than 50 kilowatts in the previous calendar year is assigned to the local electricity supply entity as a default supply customer and must receive the customer's electricity supply from the local electricity supply entity; and

(ii) with an estimated average monthly load demand of 50 kilowatts or greater but with an individual average monthly load demand of less than 5,000 kilowatts in the previous calendar year for that individual load may receive the customer's electricity supply from the local electricity supply entity as a default supply customer.

(3) (a) If the local electricity supply entity's petition meets the requirements of subsection (1), the commission shall enter an order approving the petition. On the date that the commission issues the order approving the petition, the local electricity supply entity is the default supplier within its service territory, subject to the terms of the petition.

(b) If the petition does not meet the requirements of subsection (1), the commission shall enter an order

that establishes the terms and conditions necessary for the local electricity supply entity to satisfy the requirements of subsection (1). On the date that the commission's order becomes final, the local electricity supply entity is the default supplier within its service territory subject to the terms of the order unless the local electricity supply entity elects, within 30 days from the time the commission issues the final order, to withdraw its petition.

(4) (a) An order of the commission under subsection (3) must be issued within 180 days of the petition, unless that period is extended by the commission for good cause for another 90 days.

(b) If the commission has not taken action on the petition at the end of the period specified in subsection (4)(a), the petition is considered approved as filed.

(5) A local electricity supply entity that has been designated as a default supplier pursuant to subsection (1) is exempt from the provisions of 69-8-419 through 69-8-421."

Unless the court makes that finding, a defendant convicted of any offense not enumerated in subsection (1) that may result in incarceration for 1 year or more may not be sentenced before a written presentence investigation report by a probation and parole officer is presented to and considered by the district court. The district court may order a presentence investigation for a defendant convicted of a misdemeanor only if the defendant was convicted of a misdemeanor that the state originally charged as a sexual or violent offense as defined in 46-23-502.

(3) The defendant shall pay to the department of corrections a \$50 fee at the time that the report is completed, unless the court determines that the defendant is not able to pay the fee within a reasonable time. The applicant may also request an informal review as provided in subsection (4)(d). If the applicant provides a written statement pursuant to this subsection (4)(c)(v)(C), the agreement must be amended to require the applicant to pay all undisputed increased cost and 75% of the disputed increased cost and to provide that the agency is responsible for 25% of the disputed increased cost. If the applicant does not provide the statement, the agreement must be amended to require the applicant to pay all increased costs.

(d) If the applicant does not agree with costs determined under subsection (4)(c)(i) or proposed under subsection (4)(c)(v), the applicant may initiate the informal review process pursuant to 75-1-208(3). If the applicant does not agree to a time extension proposed by the agency under subsection (4)(c)(v), the agency may initiate an informal review by an appropriate board under 75-1-208(3). The period of time for completion of the environmental impact statement provided in the agreement is tolled from the date of submission of a request for a review by the appropriate board until the date of completion of the review by the appropriate board. However, the agency shall continue to work on preparation of the environmental impact statement during this period if the applicant has advanced money to pay for this work."

**"75-1-208. Environmental review procedure.** (1) (a) Except as provided in 75-1-205(4) and subsection (1)(b) of this section, an agency shall comply with this section when completing any environmental review required under this part.

(b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.

(2) A project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency's environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.

(3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. The written request must sufficiently state the issues to allow the agency to prepare for the meeting. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must sufficiently state the issues to allow the agency and the board to prepare for the meeting.

(4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

(i) 60 days to complete a public scoping process, if any;

HOUSE JOURNAL  
FORTY-FIRST LEGISLATIVE DAY - FEBRUARY 19, 2005

(ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) or 75-1-205(4), is required; and

(iii) 180 days to complete a detailed statement pursuant to 75-1-201(1)(b)(iv).

(b) The period of time between the request for a review by a board and the completion of a review by a board under 75-1-201(1)(b)(iv)(C)(III) or (8) or subsection (10) of this section may not be included for the purposes of determining compliance with the time limits established for conducting an environmental review under this subsection or the time limits established for permitting in 75-2-211, 75-2-218, 75-10-922, 75-20-216, 75-20-231, 76-4-125, 82-4-122, 82-4-231, 82-4-337, and 82-4-432.

(5) An agency may extend the time limits in subsection (4) by notifying the project sponsor in writing that an extension is necessary and stating the basis for the extension. The agency may extend the time limit one time, and the extension may not exceed 50% of the original time period as listed in subsection (4). After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.

(6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency's decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.

(b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

(8) Under this part, an agency may only request that information from the project sponsor that is relevant to the environmental review required under this part.

(9) An agency shall ensure that the notification for any public scoping process associated with an environmental review conducted by the agency is presented in an objective and neutral manner and that the notification does not speculate on the potential impacts of the project.

(10) An agency may not require the project sponsor to provide engineering designs in greater detail than that necessary to fairly evaluate the proposed project. The project sponsor may request that the appropriate board, if any, review an agency's request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(11) An agency shall, when appropriate, consider the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through preimpact statement studies, separate impact statement evaluations, or permit processing procedures."

(2) The legislature finds that sports and recreational activities are major industries in Montana and that among the attractions of sports and recreation are risks, inherent and otherwise. The state has a legitimate interest in maintaining the economic viability of the sports and recreational industries by discouraging claims based on damages resulting from risks inherent in sports and recreation.

(3) The purpose of [sections 1 through 4] is to limit or eliminate the liability of a provider of a sport or recreational opportunity to a sport or recreational participant when an injury or damage caused by or to the participant is the result of risks inherent in the sport or recreational opportunity.

(4) The legislature intends that [sections 1 through 4] be broadly construed to effectuate the purpose of [sections 1 through 4] to shield providers of a sport or recreational opportunity from liability for injuries and damages caused by the inherent risks of a recreational activity."

(1) "Inherent risks" means those dangers or conditions that are characteristic of, intrinsic to, or an integral part of any sport or recreational activity.

**Insert:** "NEW SECTION. Section 3. Limitation on liability in sport or recreational opportunity. (1) A person who participates in any sport or recreational opportunity assumes the inherent risks in that sport or recreational opportunity, whether those risks are known or unknown, and is legally responsible for all injury or death to the person and for all damage to the person's property that result from the inherent risks in that sport or recreational opportunity.

(2) A provider is not required to eliminate, alter, or control the inherent risks within the particular sport or recreational opportunity that is provided.

(3) [Sections 1 through 4] do not preclude an action based on the negligence of the provider if the injury, death, or damage is not the result of an inherent risk of the sport or recreational opportunity.

(4) [Sections 1 through 4] do not apply to a cause of action based on the design or manufacture of sports or recreational equipment or products or safety equipment used incidental to or required by the sport or recreational activity."

**Insert:** "NEW SECTION. Section 4. Recreational activity -- applicability exceptions. [Sections 1 through 3] do not apply to duties, responsibilities, liability, or immunity related to:

Rep. Barrett read the following Proclamation regarding students from Lima High School.

A PROCLAMATION OF THE SENATE AND THE HOUSE OF  
REPRESENTATIVES OF THE STATE OF MONTANA  
March 7, 2005

WHEREAS, Lima High School is a high school of 35 students located in Southwestern Montana; and

WHEREAS, the eight members of the 2005 Lima High School senior class are Ryan Cherry, Riley Fitch, Farin Jackson, Cholpun Oskoeva, Jenna Schnitzler, Josh Slater, Tawnee Stosich, and Seth Young; and

WHEREAS these students -- who have been saving money for their senior trip since they were eighth graders -- unselfishly depleted their travel fund by giving \$5,000 to their ailing teacher, then donated additional money to this teacher to help with medical expenses, and shared another \$1,000 with a Dillon woman battling breast cancer; and

WHEREAS, these donations, which were made with no thought of personal gain, have come to the attention of people throughout the country, earning them a trip to Los Angeles to appear on The Ellen DeGeneres Show, a trip to the beach with Ms. DeGeneres, a tour of Hollywood locations, \$11,000 in donations from as far away as Florida to help fund the original senior trip to Oregon, a trip to Salt Lake City to shoot hoops with the Utah Jazz professional basketball team, and letters from both President George Bush and First Lady Laura Bush.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA: That the thanks and warm regards of all Montanans be extended to the senior students of Lima High School for this display of unselfish sharing and their willingness to give up a special adventure in order to help a neighbor. These students have reminded all Americans about the joy of giving, sharing, and sacrificing for the good of others.

House Chambers  
State Capitol

House convened at 12:30 p.m. Mr. Speaker in the Chair. Invocation by Rep. Windy Boy and Rep. Bergren. Pledge of Allegiance to the Flag.

Roll Call. All members present, except Representatives Becker, Driscoll, Koopman, McAlpin, McGillvray, Small-Eastman, and Ward, excused. Quorum present.

Speaker Matthews introduced Rep. Paul Clark. Rep Clark introduced Todd Daniels from Trout Creek and read the following proclamation:

A PROCLAMATION OF THE SENATE AND THE HOUSE OF  
REPRESENTATIVES OF THE STATE OF MONTANA  
March 8, 2005

WHEREAS, while international ambassadors frequently visit the nation's capitol, on March 17 an 11-year-old ambassador from Montana will be in Washington, D.C. as a representative of 17 million hospitalized children around the nation. Todd Daniels from Trout Creek will join 49 other young ambassadors and Grammy winner LeAnn Rimes during the visit.

WHEREAS, Todd was selected as a representative of hospitalized children around the nation because of significant challenges he overcame with the help of staff at Shodair Children's Hospital. He is the only child representing the state of Montana, and the only one to represent the critical mental health needs of children.

WHEREAS, prior to Todd's experience at Shodair beginning in 2002, he had experienced more than 20 psychiatric hospitalizations since the age of four. His difficulties resulted at least in part from birth trauma; but in spite of his complex diagnosis and medication schedule, Todd now lives with his foster family in Trout Creek and continues to make progress in all areas of his life.

WHEREAS, staff at Shodair -- Montana's only Children's Miracle Network hospital -- praise Todd as someone who deserves the recognition. Words like "He never gave up even when things weren't going his way," and "He was always ready to try again," and "Todd had a piece of everyone's heart," tell the story of this young Montanan.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA: That the congratulations and best wishes for future happiness are extended to Todd Daniels. We are proud of his efforts to grow into a happy, productive citizen of our state.

**"15-70-522. Tax incentive for production of alcohol -- written plan required -- reservation of incentives -- rules.** (1) (a) If the alcohol was produced in Montana from Montana agricultural products, including Montana wood or wood products, or if the alcohol was produced from non-Montana agricultural products when Montana products are not available, there is a tax incentive payable to alcohol distributors for distilling alcohol that:

(i) is to be blended with gasoline for sale as gasohol in Montana;

(ii) was exported from Montana to be blended with gasoline for sale as gasohol; or

(iii) is to be used in the production of ethyl butyl ether for use in reformulated gasoline.

(b) Payment must be made by the department out of the amount collected under 15-70-204.

(2) Except as provided in subsections (3) and (4), the tax incentive on each gallon of alcohol distilled in accordance with subsection (1) is ~~30~~ 20 cents a gallon for each gallon that is 100% produced from Montana products, with the amount of the tax incentive for each gallon reduced proportionately, based upon the amount of agricultural or wood products not produced in Montana that is used in the production of the alcohol. ~~Beginning July 1, 2010, there is no tax incentive.~~ The tax incentive is available to a facility for the first 6 years from the date that the facility begins production.

(3) Regardless of the alcohol tax incentive provided in subsection (2), the total payments made for the incentive under this part may not exceed \$6 million in any consecutive 12-month period.

(4) ~~(a)~~ An alcohol distributor may not receive tax incentive payments under subsection (2) that exceed ~~\$3~~ \$2 million in any consecutive 12-month period. Subject to subsections (6) and (7), an alcohol distributor may receive tax incentive payments commencing the first quarter after a facility begins production. The distributor shall report its production to the department pursuant to 15-70-205.

(b) The distributor's report must include:

(i) the total number of gallons produced for the month;

(ii) the total amount of products purchased for the production of alcohol;

(iii) the percentage of the total amount of products purchased that are Montana products; and

(iv) other information that the department determines is necessary.

(5) An alcohol distributor may not receive tax incentive payments under subsection (2) unless the distributor has provided a written business plan to the department of transportation at least 24 months before the distributor's anticipated application for collection of the tax incentives ~~and has complied with the schedule provided for in subsection (6).~~ The plan must contain the following information:

(a) the source or sources of financing for the acquisition of the plant, land, and equipment used for the production of alcohol for use in gasohol;

(b) the anticipated source of agricultural products used in the production of alcohol for use in gasohol; and

(c) the anticipated time, quantity, and duration of production of alcohol for use in gasohol.

~~(6) An applicant that has provided the department with a written business plan shall meet the following schedule to be able to receive alcohol tax incentive payments:~~

~~(a) start building construction or remodeling within 24 months of the date on which the department received the business plan;~~

~~(b) complete 50% of construction or remodeling of a production facility within 36 months of the date on which the business plan was received; and~~

~~(c) complete 100% of construction or remodeling of a production facility and be in production of alcohol for use in gasohol for distribution within 48 months of the date on which the business plan was received.~~

~~(7) If the applicant does not adhere to the schedule in subsection (6), the applicant loses its priority for receiving incentive payments.~~

~~(8)~~ (6) (a) A plant shall apply for the incentive payment by submitting an application to the department

when the plant has proof of commitment from lenders to finance the plant. Subject to subsection (6)(b), the department of transportation shall respond to the applicant with approval of the application within 45 days of receipt of the application, after confirming the lending commitment. Upon approval of the application, the department shall enter into a contract with the plant that ensures the state's commitment to pay incentive payments to qualifying ethanol plants.

(b) If the department of transportation is not able to confirm a lending commitment, the department shall deny the application.

(7) After the department has verified production, the application provisions of subsection (6) are met, and the plant owner presents proof of financing, the department shall begin payments of the alcohol tax incentives based on actual production according to the terms of subsection subsections (2) and (4).

- (1) furthers the ability to reason critically and creatively;
- (2) fosters the ability to effectively communicate ideas, knowledge, and thoughts;
- (3) develops a sense of personal and civic responsibility;
- (4) develops a strong work ethic, postsecondary readiness, and employment skills; and

**Insert: "NEW SECTION. Section 2. Basic system of free quality public elementary and secondary schools defined -- identifying educationally relevant factors -- establishment of funding formula and budgetary structure -- legislative review.** (1) Pursuant to Article X, section 1, of the Montana constitution, the legislature is required to provide a basic system of free quality public elementary and secondary schools throughout the state of Montana that will guarantee equality of educational opportunity to all.

(2) As used in this section, a "basic system of free quality public elementary and secondary schools" means:

- (a) the educational program specified by the accreditation standards provided for in 20-7-111, which represent the minimum standards upon which a basic system of free quality public elementary and secondary schools is built;

- (b) educational programs to provide for students with special needs or disabilities, at-risk students, students with limited English proficiency, and gifted and talented students;

- (c) educational programs to implement the provisions of Article X, section 1(2), of the Montana constitution and Title 20, chapter 1, part 5, through development of curricula designed to integrate the distinct and unique cultural heritage of American Indians into the curricula, with particular emphasis on Montana Indians;

- (d) qualified, well-prepared, and effective teachers, staff, and administrators to implement the programs in subsections (2)(a) through (2)(c);

- (e) facilities and onsite distance learning technologies;

- (f) transportation of students pursuant to Title 20, chapter 10;

- (g) a procedure to assess and track student achievement in the programs established pursuant to subsections (2)(a) through (2)(c); and

- (h) preservation of local control of schools in each district vested in a board of trustees pursuant to Article X, section 8, of the Montana constitution.

(3) In developing a mechanism to fund the basic system of free quality public elementary and secondary schools, the legislature shall, at a minimum, consider the following educationally relevant factors in making adjustments to the funding formula:

- (a) the number of students in a district;

- (b) the needs of isolated schools and school districts with low population density;

- (c) the needs of urban school districts and school districts with high population density;

- (d) the needs of at-risk students, students with special needs or disabilities, students with limited English proficiency, and gifted and talented students;

- (e) the needs of American Indian students; and

- (f) the ability of school districts to attract and retain qualified educators and other personnel.

(4) By July 1, 2007, the legislature shall:

- (a) determine the costs of providing the basic system of free quality public elementary and secondary schools;

- (b) establish a funding formula that:

- (i) is based on the definition of a basic system of free quality public elementary and secondary schools;

- (ii) allows the legislature to adjust the funding formula based on the educationally relevant factors identified in this section;

- (iii) is self-executing and includes a mechanism for annual inflationary adjustments;

- (iv) is based on state education laws;

- (v) is based on federal education laws consistent with Montana's constitution and laws; and

- (vi) distributes to school districts in an equitable manner the state's share of the costs of the basic system of free quality public elementary and secondary schools; and

- (c) consolidate the budgetary fund structure to create the number and types of funds necessary to provide school districts with the greatest budgetary flexibility while ensuring accountability and efficiency.

(5) At least every 10 years following [the effective date of this act], the legislature shall:

- (a) authorize a study to reassess the educational needs and costs related to the basic system of free quality public elementary and secondary schools; and

(2) Prior to adoption or amendment of any accreditation standard, the board shall submit each proposal to the education and local government interim committee for review. The interim committee shall request a fiscal analysis to be prepared by the legislative fiscal division. The legislative fiscal division shall provide its analysis to the interim committee and to the office of budget and program planning to be used in the preparation of the executive budget.

(3) If the fiscal analysis of the proposal is found by the legislative fiscal division to have a substantial fiscal impact, the board may not implement the standard until July 1 following the next regular legislative session and shall request that the same legislature fund implementation of the proposed standard. A substantial fiscal impact is an amount that cannot be readily absorbed in the budget of an existing school district program.

When a school of nine or fewer pupils is approved as isolated under the provisions of 20-9-302, the county and state shall participate in the financing of the total amount of the direct state aid.

(2) Funds provided to support the special education program may be expended only for special education purposes as approved by the superintendent of public instruction in accordance with the special education budgeting provisions of this title.
